Look at the 3-way bonus you get in the car that's sweeping the nation!

1. You get the car that's styled for tomorrow —

and for just a few dollars more than the so-called "low-price three"!

In Buick today you find the fresh modern beauty that will pattern the styling of other cars yet to come. That's a major reason for Buick's soaring success this year. But the clincher is Buick's low delivered price—lower than you think. No other car at so low a price gives you this advanced styling—plus Buick's great room, comfort, ride and V8 power.

2. You get the car that's a sure high resale value

Of this you can be sure: the new Buick you buy today will look modern next year, too—because that broad panoramic windshield will be appearing on other cars as a 1955 feature. So with the new Buick you buy now, you'll stay right up in the style parade for years to come—and command a higher resale price when you trade it in.

3. You get a bigger allowance from our volume business

Regardless of price class, Buick today is outselling all other cars in America except two of the "low-price three." That's fact. So with this tremendous sales volume, we can offer you a higher trade-in allowance when you buy a new Buick. Come in, see and drive Buick the beautiful buy. Then see for yourself how our volume business means a far bigger allowance for you.

Each new month firms the fact—

Buick Sales are Soaring!
