Wondering what new car to buy? Step to the window, watch traffic, and you'll see how others are settling this question. They are buying Pontiacs—at a faster rate than ever before in history!

Ask why and you'll hear many reasons, but the basic reason is this. The '55 Pontiac personifies everyone's dream of what a modern car should be.

There's Pontiac's unique combination of beautiful long, low lines, Vogue Two-Tone styling, and Twin-Streak distinction. There's Pontiac's long wheelbase—the secret of the wondrously safe, smooth ride that makes you and your passengers the happiest people on wheels.

There's Pontiac's roominess and luxury . . . living-room comfort and mode-of-tomorrow decor . . . along with picture-window vision all around.

And there's Pontiac instant control and Strato-Streak V-8 performance—but these must be enjoyed to be believed.

Take a total of the foregoing and here's the result—more of everything than a like amount of money has ever bought before!

How much money? You can actually buy a Strato-Streak-powered Pontiac for just a few dollars more than the very lowest-priced cars! Come in and find out how little it costs to switch to modern motoring.
