## SEGO MILK

Guessing Contests. Win some nice prizes.

Some one told us that it was customary to have a grand opening, when you open the doors of a new store.

Since we are about two weeks late in celebrating this affair, we have decided on just simply busting the thing wide open.

We have spent weeks, securing merchandise from all parts of the country, which will be available to you at prices you will be happy with.

We not only feel that it will be profitable for you to come in and shop, but it will give us an opportunity to meet our new neighbors.

We have tried hard to arrange things that will be pleasing not only to Mother and Dad but the kids also.

## 3 Boys Bring Prices Down

Many people have already noticed a radical reduction in their food costs since 3 Boys came to town.

## To the Working Man

We have heard of grocery men who would have you believe you can get wealthy on what they will save you. We would like to state that the best way to save money is to stay out of all grocery stores.

Even at the lowest possible selling prices groceries are still too high.

## Our Pricing Policy

Let no one tell you differently, "we came to Cottage Grove to make a profit." There are two ways to do this. One way is to buy a pound of margarine and sell it at a 10c a pound profit. The other way is to buy 10 lbs. of margarine and sell all 10 lbs. at a cent per pound profit, and you arrive at the same figure.!

In other words, we believe in buying huge quantities and selling at a low profit turn-over. All our equipment is the latest, most modern, and efficiently set up for volume sales.

The proof of the pudding, is in tasting it. We boys, as local, home-town independent operators, hope you will come in and try us out.
