Current Events, United Nations; Topics for IRL

The newly reorganized International Relations League had its first meeting of the season, October 19, at CG High.

The meetings are for the discussion by the members of world topics such as, world government, problems of the Far East and peace-making plans of the United Nations.

Among IRL's many activities are panel discussions presented by the students to various civic organizations in Cottage Grove. Much material has been gathered on Africa and they are planning to use it at several public gatherings, including the State IRL Conference held on the University of Oregon campus in February.

At the meeting Thursday the chapter elected the following new officers for the ensuing year: President, Bud Stewart; Vice President, Marie Fritch; Secretary - Treasurer, Historian, Bill Vertrees.

The already growing club has two new transfer members, one from Tigard, Oregon, and one from Greeley, Colorado. They are Joyce Weckert and Doris Van Antwerp, respectively.

Miss Lois Rice, adviser for the group, invites anyone interested in such topics to attend the meetings.

Chev Will Show '56 Model Nov. 4

DETROIT—Climaxing a sales year that promises to set new all-time records for the automobile industry, Chevrolet will introduce 1956 passenger cars Friday, November 4.

The new models will go on display simultaneously at dealer showrooms across the country. Although details have been withheld, the company has reported the forthcoming line is the most diversified in its history.

W. E. Fish, general sales manager of Chevrolet, predicted one of the company's most successful retail showings.

"This is the biggest day of the year for Chevrolet dealers," Fish commented, "and they traditionally go all out to make it a memorable occasion for the people who visit their showrooms."

"Special entertainment, decorations and favors are an accepted policy by thousands of dealers. The expense in showroom trim alone will run well over \$3,000,000. Dealers want to be certain that the background and setting of the new cars do justice to their many improvements."

A feature at many showings this year will be demonstration rides in a duplicate of the car that clipped a full two minutes off the Pikes Peak hill climb record. The officially certified mark was set in September with a heavily disguised 1956 model.

WHAT'S DOING
C. W. "Bill" Hawkins, your Telephone Manager for Cottage Grove

Housewife rates her telephone "tops"

"Of all my household items," says Mrs. F. G. Dominey, "I think my telephone is the most useful. I can't count all the ways I depend on it. For example, I do a lot of my shopping by phone. Then there are the calls for repairs, to make appointments, to round up my youngsters in the neighborhood, and for a hundred and one other things. And that doesn't include all the pleasure our phone brings us... as a fast, easy way to visit friends and relatives. I certainly don't know what we'd do without it." Most people we've talked to agree with Mrs. Dominey about the usefulness of the telephone. Isn't it true that few things which serve so well cost so little? Pacific Telephone works to make your telephone a bigger value every day.

Enjoy a family visit in several cities at once by long distance

live, their phone numbers, and when you want to talk. She'll do the rest. You'll be pleasantly surprised at how little it costs, especially if you call after 6 p.m. in the evening or any time Sunday. Why not give your whole family a real surprise with a conference call tonight?

The United Fund

Why we should support the United Fund Drive now going on in Cottage Grove. Mr. Frank Dressler, Vice-President and General Manager of Pacific Telephone and Telegraph Company, has this to say about the United Fund, "It does the most good for the greatest number at the least cost. The United Fund way of giving not only saves overhead and administrative costs, it also saves thousands of hours of volunteer worker's time and prevents interference with production workers in industry."

To me, this statement not only represents a rational, but a true American approach to help those agencies who, if they are to do a good job, so greatly need our contributions.
