

Providing Banking Protection

The vast resources of the Federal Reserve System, now over a thousand million dollars are contributed by the depositors in banks which, like ourselves, are members of this great system.

The largest and the smallest of our depositors each contribute in the same proportion to this fund, which gives protection to all.

If you haven't this protection already you ought not to delay. You secure it the moment you become one of our depositors.

BRIEF NEWS OF THE WAR

Marshal Foch followed up his successful counter attack on the Soissons-Rheims salient by an offensive on the Picardy front, where the Germans made their great gain last March. The bulge in the allied lines in Picardy melted away before the combined onslaught of the British, French, Australians, Canadians and Americans and the indications are that the Germans will not only lose all they gained in their offensive in March but may be forced back to the old Hindenburg line.

BRIEF NEWS OF THE WAR

The allied forces forged ahead so rapidly in Picardy that the German retreat almost reached the proportions of a rout in places. The whole bottom of the salient flattened out in two days' fighting. The French captured the important town of Montdidier.

Important German lines of communication have been cut. Oothers are under bombardment by artillery and airplanes. The enemy retirement within the salient is reported to be greatly congested and great numbers of men and huge quantities of material are being cut off.

The number of prisoners captured during the first three days of the offensive is very large. It is hinted at Paris that it exceeds by far the figure given out in the official statements.

Two divisional headquarters, with their staffs, are said to have been taken. The guns and war materials lost by the enemy constitute a very heavy loss.

The tanks, armored cars and cavalry worked throughout the entire region, while airplanes soared far behind the lines, bombing transport and troop movements and also paying particular attention to the bridges over the Somme, by which the enemy is endeavoring to escape. All behind the line the Germans are destroying ammunition depots as they quit their positions.

There has been little fighting of great moment on the Vesle river, except in the nature of reciprocal artillery duels. The Americans have made another crossing of the Vesle and captured the village of Fismette, northwest of Fismes.

YANKEES REPULSE GERMAN ATTACKS

With the American Army on the Vesle Front.—In attempting to dislodge the French and Americans from positions north of the Vesle river on both sides of Fismes, the Germans launched repeated counter-attacks, without success. There was desperate fighting in the region of Fismette, where the German attacks were repulsed by the Americans, who were clinging to the outskirts of the village.

In the region of Bazoches the Germans made several vicious attacks, but the allies successfully fought them off.

The Americans took a few prisoners at Fismette as a result of hand-to-hand encounters. After a second German night attack the Americans retaliated and penetrated the German lines a short distance. They reached one of the enemy's first-aid field stations and took prisoner several wounded Germans.

The Americans then returned to their semi-circular positions at Fismette and resisted all attempts of the enemy to dislodge them.

ALLIES STRIKE ON NEW FRONT

Drive in Picardy Grows From Front of 20 Miles to More Than 40 Miles.

Paris.—Marshal Foch has struck the Germans on a new front and French opinion, lay and professional, is lost in admiration of the manner in which the blow has been carried out.

The present maneuver on the Picardy front is similar to the counter offensive north of the Marne in that it is directed toward squeezing two sides of a salient.

The allied drive, begun over a meager front of less than 20 miles, has grown to a width of more than 40 miles, extending in an irregular line from Albert to Vignemont. Reports received stated that the fighting is spreading northward toward Arras and eastward toward the Oise. When it will have reached these points the battle will present a front of nearly 75 miles.

Nearly 40,000 prisoners and 700 guns have been taken by the allies in Picardy, according to reliable information here.

Extremely bitter resistance is being encountered from the Germans along the line of Chaulnes-Roye-Noyon. The enemy is bringing up strong reinforcements, while the allies are preparing for a further advance.

The French advanced eastward after their capture of Montdidier.

The Germans at Montdidier were caught between the jaws of a vise. Converging attacks from the north and from the south succeeded in encircling the town.

The supplies taken have been so large that it has not been possible to make an inventory of them as yet.

FOCH'S STRATEGY SPOILS GERMAN PLAN

With the French Army in France.—The situation since the battle of the Aisne shows a change which for rapidity and extent has rarely been approached in military history. Marshal Foch's strategy and masterly tactics have in three weeks wrested from the Germans what required four months for them to obtain at a cost variously estimated at from 700,000 to 1,000,000 men.

The immediate results of the counter offensives which will have the greatest bearing on subsequent operations are the clearing of the Chateau-Thierry pocket, ending the menace to Epernay and Paris; the liberation of Montdidier, ending the menace to Amiens; the freeing of the important eastern railroad line from Paris to Chalons and the equally important northern line from Paris to Amiens, restoring to the allies means of communication which give them enormously greater ease in future movements of troops.

AMIENS OUT OF GUN RANGE

Great Transportation Center Safe, Thanks to Allied Triumphs.

London.—Speaking at a luncheon at Newport, Monmouthshire, Premier Lloyd George emphasized the importance of the pushing back of the Germans from within gun range of the Amiens railway.

"Hundreds of trains used to pass through Amiens daily," the Premier said, "but we were temporarily deprived of its use until recently, when we were able to employ 20 trains daily. Amiens is now safe, through the recent allied triumphs on the Marne and the Somme, which were due to the unity of command."

Haig Advancing on Flanders Front.

London.—Increased activity in Flanders with slight advancement of the British lines at two points in the center of the salient, was announced by Field Marshal Haig.

Wilson Abandons His Trip to Coast.

Washington.—President Wilson has abandoned the slight prospect had of visiting the Pacific coast at least for many months, probably until the close of the war.

Ship Torpedoed Off New York.

New York.—A German submarine, approaching the very gates of New York harbor, sank the oil tanker Frederick R. Kellogg off the Ambrose channel. Thirty-five members of the crew brought here reported that seven are missing.

Germans Want Finns to Fight.

Washington.—A report from Stockholm reaching the state department from sources considered reliable says the German government has addressed an ultimatum to the Finnish government requiring that the Finnish army prepare to march against the entente forces on the Murmansk coast within two weeks.

MAJOR CLARK

Major Bennett Clark of the National Army, who is a son of Speaker Champ Clark of the house of representatives.

ALLIES PREPARE FOR ANOTHER BATTLE

With the American Army on the Aisne-Marne Front.—From Rheims to Soissons, and far back toward the Marne, the Americans, French and British were being concentrated for the battle of Vesle. All the indications were that the great chase of the Germans which began on July 18 is nearing an end.

Beyond the Vesle the enemy has planted his artillery and at different points has challenged the allies to pursue him. Along the southern bank General Foch's armies have slowed down to give an opportunity to those outdistanced to catch up. It is regarded probable that it is the German plan to offer a stiff resistance in order to gain more time for a withdrawal to the Aisne. Near Fismes there are a few German machine gunners, but no serious resistance is expected. The American and French guns are in position and a great quantity of shells is being hurled onto the table land which the Germans are holding.

BRIEF NEWS OF THE WAR

The Germans have been thoroughly vanquished on the Soissons-Rheims salient. Allied troops have pushed forward until they have cleared the enemy out of the entire region south of a line drawn from Soissons to Rheims. French troops captured the city of Soissons and Americans aided by the French have taken the important German supply depot of Fismes.

The German armies have retreated across the Vesle and they are evidently headed for the Aisne river, across which they stormed their way on May 27 in their plunge toward the Marne.

The fact that the enemy has destroyed bridges across the Vesle and is burning villages north of that river makes plain that no effort will be made to hold that line, and that the next stand will be made at the Aisne, or even farther north, along the Chemin des Dames high ground.

Beyond the Aisne, which in itself is a strong defensive line, is the Chemin des Dames plateau, then the great forest of St. Gobain, and the important center of Laon.

From the southeast of Amiens near Montdidier northward to the region around Ypres the German front seems all a-tremble with expectancy.

In addition to a retreat near Montdidier to the west bank of the Aisne river, retrograde movements in the face of attacks around Albert and an evacuation of territory over a front of half a mile north of La Bassee canal, the Germans are nervously bombarding British and French positions at various points, possibly with the idea of ascertaining their strength.

The Bethune, La Bassee, Hazebrouck and Ypres sectors are being particularly chosen for the attention of the German artillerymen.

Submarine Sinks U. S. Light Ship

Washington.—The Diamond Shoals lightship off Cape Hatteras, N. C., was shelled and sunk by an enemy submarine, the navy department was informed. The crew was reached shore safely. The submarine came within a half mile of shore, according to the report which reached the navy department.

Idaho Mine Owners Ask For Troops.

Boise, Idaho.—A request for troops in the Coeur d'Alene mining district was made in a telegram to Governor Alexander from six of the biggest lead and zinc producing mines in the northern part of the state. All of the miners at the Morning and Gold Hunter mines have quit work and the strike threatens to spread to the other producing properties which furnish nearly 40 per cent of the lead output of the U. S.
