The Sentinel has purchased a quantity of the cook books formerly used by The Evening Telegram, of Portland, which it will sell to its paid-in-advance subscribers at 25 cents each. Without the advertising which it carries the book could not be secured for less than a dollar. It contains hundreds of tested recipes, all complying in every detail with the conservation program which cooks are asked to observe.

TELLS HOW SUPPORT AT HOME ENCOURAGES MEN OF ARMED FORCES

Marion P. Martin is Well Pleased With Patriotic Efforts of His Old Home City.
Park Hospital, 395 Central Park, W., New York City, Aug. 29.—(Editor Sentinel.)—It was with sincere pleasure I received a copy of your paper on my last voyage in, through the kindness of my boyhood friends, Mr. and Mrs. J. H. Hawley. Another thing that gave me pleasure was the evidence in its columns of the outspoken loyalty and support of the nation's cause by Cottage Grove. While I never doubted the loyalty and support of the good people of my childhood's home, it seems good to see the fact mentioned in the home paper.
It encourages us to know we have the people at home behind us. Through the long dark watches of the night when, with thousands of khaki-clad lads aboard, we are threading our way through the war zone it again gives hope and an ambition to do the best there is in us. To the navy is given the safe delivery and protection of our soldier laddies while en route. It sure does one's heart good to see the American destroyer flotilla that conveys us through the war zone. Too much praise cannot be given these little "sea wasps" for the work they have done and are doing, and the terror they inspire in the Hun U-boat commanders, who, while they have managed now and then to get a home-bound empty transport, have never got even one American troop-laden ship. The Tuscania, while laden with American troops, was an English ship manned by a British crew and under a British convoy. The blood of the boys who died when it went down will yet be avenged.
All honor and praise to the greatest man of the world, President Wilson. He and his army and navy chiefs have

wrought miracles and astonished the world. In less than 18 months they have trained, equipped and transported a million and a half men to Europe. These silent chiefs have borne burdens and acted. There may have been errors, but none to compare with those made by other nations, and infinitesimal compared to the success attained. Our president is the greatest man in the world today, and will dictate the peace of the world—a peace that will be lasting.

THE DEVINE BROTHERS WRITE FROM OVERSEAS

Mr. and Mrs. T. G. Devine, of Elkhead, Ore., were happily surprised last week upon receiving several letters from their sons, Grover T., Reece M., and Maynor R. Devine, who are with battery C, 65th regiment, C. A. C., France, dated July 31. A letter from Robert C. Shields, of the same date, was received by his sister, Mrs. Grover Devine. They had recently moved from their quarters at Limoges, France, and are now located at La Courtine, which is in the Auvergne mountains of south central France, and are at an elevation of 7400 feet above sea level. Extracts of the letters follow:
"We are up in the mountains, but they don't look like any mountains I ever saw."
"It's a hilly country and reminds me of Oregon. Have planted our first big willow. Are practicing on the French 75s. Will begin action in a few days. Am all ready for the front when the order comes and are anxious to get there."
"We are well fed and fat as pigs"
