

Providing Banking Protection

The vast resources of the Federal Reserve System, now over a thousand million dollars, are contributed by the depositors in banks which, like ourselves, are members of this great system.

The largest and the smallest of our depositors each contributes in the same proportion to this fund, which gives protection to all.

If you haven't this protection already you ought not to delay. You secure it the moment you become one of our depositors.

PATTEN IS IN THIRD MIX UP WITH SEA DEVILS

Wheeler Says Yanks Shell Hill at 3 o'Clock and Occupy It That Night

Following are parts of letters written by our boys in the service:

PATTEN HAS SOME EXPERIENCES.

Mr. and Mrs. Jasper Patten have received another letter from their son Will, who is in the navy. Among other things he says: "Just back from France this morning. We were 16 days on the way. We were followed by subs, four nights and three days. Six torpedoes were fired at us. One missed us about 40 feet and sank another ship. This is the third mixup I've had with the subs. In 12 trips across. I hope I don't have to make more than a thousand more and I don't know whether or not I am going to be able to come home when I'm paid off. If the war isn't over pretty soon and I don't get killed off I'm going to try for the merchant marine. You have to be a real man to stand up

OUT OF THE GLOOM

Many a Gloomy Countenance in Cottage Grove Now Lightens With Happiness.

A bad back makes you gloomy. Can't be happy with continual back ache.

The aches and pains of a bad back are frequently due to weak kidneys. Donan's Kidney Pills are recommended for weak kidneys.

So Cottage Grove citizens testify. Mrs. J. J. Moore, Sixth St., Cottage Grove, says: "I am more or less subject to kidney trouble. My back gets very sore and lame at times and during this misery, my kidneys act irregularly. I feel tired-out and depressed generally. After I have taken Donan's Kidney Pills for a few days my back feels as strong as ever and my kidneys become normal."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Donan's Kidney Pills—the same that Mrs. Moore uses. Foster-Milburn Co., Props., Buffalo, N. Y. s20-27

FOSTER AFTER KAISER'S GOAT.

In a recent letter to his parents, Mr. and Mrs. A. E. Foster, George Foster, of the 4th engineers, says: "Our outfit is up front again but not so close to Jerry as we were the other time. Talk about moving. Ever since this drive started we've been jumping like a four-ring circus. If we ever catch up with Jerry we'll have to use trucks. The first night our platoon started out we pulled trucks, ambulances, artillery, escort wagons and every other kind of thing out of the mud. One guy with an escort wagon and three or four sacks of feed was holding up a whole train of artillery. He was the most helpless skinner I ever saw. We shoved him, four-line team and all out of the mud and on his way. At night my partner and I were so tired we took a chance on it not raining. About 2 o'clock I woke up in time to catch myself going down for the second time. Rain? Well I should say! Spoil all my pictures and cigarette papers and a full box of Pall Malls. I cussed a little, rolled over and went to sleep.

Have not had any paper to write with but happened to run onto a French canteen and got some, together with some blackberry jam. Suppose you've read about the drive. Yours truly was Johnny on the spot and can say I've seen all that kind of work I care to see. You know they are so careless with weapons up there. Things sure were moving. I slept in a place I dug out in the side of a bank, or rather tried to sleep. After having seen what the infantry of our outfit did, those doughboys can have my clothes, rations and everything else I've got. Where we are now was enemy soil not very long ago. There is lots of grain here that he will never cut. The way the dugouts were fixed up he must have figured on staying all winter. We found some of his machine guns and ammunition he had to leave and after work it's fun to go out and practice with them. You know you might want to use one some time.

I suppose that before this reaches you they will have some wild stories about this company. Before we had been here a month they had it in Portland that we had been all cut up. Don't you worry none. We'll get his goat yet."

FRANCE NOT ALL DEVASTATED.

Following are excerpts from a letter written by Hiram Wheeler, company B, 119th field artillery, to his mother, Mrs. W. N. Wheeler, and to his aunt, Mrs. Nedra Drake:

"The country here is picturesque. The buildings are of stone and brick roofed with slate or tile. The land is farmed almost entirely by hand. Hay and grain are cut with the old-fashioned scythe and cradle. The people live in villages and go out to the fields each day taking their noon meal with them. This meal consists nearly always of bread, some kind of salad, eggs and a bottle of wine. The men cut the hay or grain and the women rake and shock it. In most places where we have been the country people are very obliging and are anxious to give their 'Americque' comrades any assistance they can. They seem to be very partial to the American soldiers although they think a great deal of the Canadians and Australians. In one sector where we were stationed there were many chateaus. They have beautiful grounds and hedges and are in perfect repair although some of them were built in the thirteenth and fourteenth centuries.

The day of the month has ceased to bother me, so I won't set it down here. It really seems good to have a few moments to write home between the hot days we have just gone through and the ones we expect to go through. I am well and sound at present. Can't tell how long I'll be that way but 'I'm going to live anyhow until I die,' as the song says. You can get some idea of what we have been doing when I say we were shelling a hill at 3 o'clock and moved onto the hill that night.

The Sentinel has an interesting letter from Albert Woodard—one of the best letters descriptive of actual warfare it has received—which will be published next week.

MANY VOLUNTEERING SUBSCRIPTIONS FOR BONDS

Best Way of Showing Real Interest in War and of Saving Time of Busy Men

The volunteer spirit is getting into the people of Cottage Grove and the banks are already receiving many applications for the fourth Liberty loan. Appearances indicate that Cottage Grove's quota will be raised by the time the drive opens on September 28. This is what the local committee desires and what the state committee asks. The quota is over \$80,000.

Every person can just as well not make his subscription without waiting to be called upon. Each person doing this will more surely demonstrate his interest in the war and will be conferring a great favor upon the already busy men who would be compelled to give up their work to call upon him.

It is also the desire of national, state and local committees that each subscriber divide his loan among as many members of his family as possible, to show that every man, woman and child is behind the war.

Following are names of committeemen for the fourth Liberty loan in this territory:

Saginaw to Walker, but not including Walker—J. A. Joll, Ernest Sears, Lee Nixon, F. T. Benston.

Lorane—Calud Schrack, C. C. Davis, Roy Foster, Oral Crowe.

The Cedars—G. W. McFarland, W. A. Hemenway, M. M. Wheeler, Curtis Veatch.

GROVE BOYS PROBABLY IN THICK OF FIGHT IN ST. MIHIEL SALIENT

It is possible that the 65th artillery, formerly the Oregon coast artillery, took part in the operation which resulted in flattening out the St. Mihiel salient and the capture of 18,000 Germans, according to Major William G. Williams, of Eugene, formerly adjutant of the coast artillery, who returned a few days ago from France.

Major Williams says that both officers and men of the 65th had, at the time he left France, completed their course of instruction in tractor and artillery schools, had made exceptionally good records in artillery practice and were ready for service at the front. The tractors, he explained, are used in hauling the heavy artillery, and the schools give instruction in their use in connection with hauling the big guns. Many Cottage Grove boys are in the 65th.

Sutcliffe Turns Down Contract.

Dr. Robert Sutcliffe returned Friday from a chautauqua tour through Canada and the eastern portion of the United States. He reports that chautauquas were never so successful and entered much new territory. He had an opportunity to go to Australia but turned down the contract and expects to spend several months here with his family. He spoke at the Methodist church Sunday night to a good sized audience.

You Can't Eat Meat 100 Miles Away

Preparing meat is only a part of Swift & Company's usefulness.

The finest meat in the world wouldn't do you any good one hundred miles away from your table.

Swift & Company efficiency has made it possible to place complete lines of products in the smallest and most remote communities.

To be sure the work is done well Swift & Company, through its branch houses and car routes, brings the meat to the retail dealer for you.

Swift & Company lays out car routes covering towns—big, little, medium size—which are not served by a Swift branch house.

Salesmen find out in advance what is wanted by the dealers in every town.

They are followed by refrigerator cars loaded with retailers' orders, which are delivered at each town—fresh, clean, and sweet—once or twice each week.

Swift & Company operates a large number of car routes like this, from fourteen distributing plants.

This is a necessary and natural part of the industry in an orderly, effective way. It makes better meat cheaper from one end of the land to the other.
