MEASURE IS FULL OF JOKERS

Report Persistent That Single Tax Idea Lurks in the Jackson Bill.

A few years ago the people of the state of Oregon, in a spirit of gentle and amused tolerance, listened to the Portland Journal's campaign for single tax. It was Mr. Jackson's pet hobby, and his official mouthpiece shouted long and loudly. When the votes were counted, however, the people breathed a sigh of relief, for single tax and Oregon citizenship were found to have nothing in common.

izenship were found to have nothing in common.

For a time Editor Jackson subsided. Unable to dictate the editorial policies of the newspapers of the state, and stung to the quick at the decisive defeat of his pet scheme, he maintained an attitude of calm demeanor.

Now Mr. Jackson steps up to bat again, fostering and fathering a new plan of unfathomable and inexplicable legislation. In on the scheme with Jackson is a Portland attorney, and the two have devised a plan that is unique to say the least. Just the interest of the lawyer has not been divulged. The proposed law bears the Jackson trademark, and those who have familiarized themselves with the measure, say it is as full of "jokers" as some of Mr. Jackson's single tax measures in the days of old.

Jackson's scheme is to abolish the delinquent tax law as it now stands and substitute in its place an impractical, ethereal scheme, cleverly framed to lure the voters, but intended as a piece of radical and vicious legislation that will benefit the lawyers, the title grabbers, and others of their ilk, at the expense of the struggling home and land owner. Such is the Jackson delinquent tax bill. There are those who intimate that Jackson's energy in working for the bill is due to the fact that his Portland Journal has been overlooked in the publication of Multnomah lists in days gone by, and that his spleen against the present statute is inspired through petty jealousy in the Portland newspaper field. This may or may not be the case.

The present tax publication law for Oregon is the ideal measure if public service may be considered the criterion. It is simple, practical, and devised to protect the taxpayer from the title grabbers and other vultures. Briefly, it provides that notice be sent by the tax collector, THROUGH THE MAIL, to every delinquent taxpayer within 90 days from the date of delinquency. Then, and only then, to reach those whom the mails have failed to reach, the law provides that publication shall be made in the newspapers.

Could any plan be fairer? Could there be any better scheme to protect the unfortunate delinquent from the malicious cunning of the tax title grabber—who loves to work in the dark?

Now come Mr. Jackson and the Portland attorney and initiate a bill to abolish the publication. It requires no particular mental acumen to see the result, to note the splendid opportunity for the title grabbers and their legal friends to quietly "clean up" on those who have failed to receive notice. Theoretically the scheme looks fine on paper. So did single tax. So did other bits of freak legislation that have been turned down cold by the thinking voters.

Jackson would have the tax collector send the notice through the mail—AS HE NOW DOES UNDER THE PRESENT LAW. The law makes the burden obligatory on your part to keep him notified of any and all changes of address; otherwise you lose your defense in case of foreclosure, and cannot plead lack of notice. In other words you are

IF YOU HAVE DISEASES OF THE Stomach, Disease of Skin or Gall Stones . . . See Dr. Oglesby

left holding the sack. To add insult to injury, Jackson would make the tax collector personally liable to keep posted on your address. Briefly stated, you MUST keep the tax collector posted at all times, or lose; if Uncle Sam happens to fail to deliver the notice, as he frequently does, you lose again; if the tax collector fails to do his part, you lose a third time—and the poor collector loses also. Can you beat it?

Jackson's scheme would end with the sending of notice by the collector. The present law provides for exactly the same as that of Jackson, but goes a step further in the direction of common sense, and requires the tax collector to publish the list which is still delinquent after Jackson's method has been tried out, thus giving the essential publicity to protect the delinquent from the wiles

of the tax title grabber and the tax lawyer. Of course these latter gentlemen are working tooth and nail for the law and believe they can put it over this fall under the much abused banner of "economy" so-called.

Certainly there could be no fairer, more equitable scheme than the present law. Let well enough alone and help the state of Oregon protect the holdings of its people from the tax vultures. Watch for the "Jackson" label at the coming election and swat the measure hard.
