The democrats are now appealing to the people for retention in control of congress alleging that this is the only way to insure support to the president. Yet the democratic record in this respect is pitiful enough, as witness their attitude on the first draft bill, which required republican votes and the championship of the republican, Hon. Julius Kahn, to pass. If the people vote for the party which has best supported the president in war time, there is no fear but that the republican party will reorganize both branches of the next congress.

A FEW OF THE MANY REASONS WHY GOVERNOR WITHYCOMBE SHOULD BE RE-ELECTED

He is loyally, patriotically American. He has faithfully co-operated with the president in every war time activity.

He was foremost of governors for preparedness and has earnestly supported a vigorous prosecution of the war.

He has stood for and insisted upon a square deal for both labor and capital, industrial development of the state and suppression of I. W. Wism.

He has for more than 20 years earnestly supported and vigorously advocated woman suffrage and prohibition and has stood for a better and cleaner state.

He did not assist in organizing the Non-partisan league in Oregon, neither was he a worshipper at the shrine of populism and other organizations of doubtful purpose and loyalty.

He has conducted his office patriotically, fairly and economically—always has he placed patriotism and efficiency in the public service above party politics.

He has given his earnest consideration and substantial effort in promoting the happiness and comfort of the boys in the service of their country, and, lastly,

He has a record for a sound, business administration and loyal and earnest effort in the nation's present crisis that should command the approval and support of the whole people.

Re-elect Withycombe—why experiment—(Paid Ad. Copy furnished by Oregon Republican State Central Committee, Portland.)
