Mrs. J. F. Gildersleve and Edith Wheeler were in Cottage Grove Monday.

Instead of having moved into the Farmer house, Mr. and Mrs. Cooley are occupying a part of the Fred Ernst house.

**TOO MUCH WASTED ENERGY**

Writer Has Right Idea in Pointing Out Folly of the Present-Day Hustle and Bustle.

The world is always in a hubbub; people rushing here and there in what appears to be a futile fashion. Why do we not conserve our energies, save our time and strength for big things? What does the hustle and bustle amount to, when we do sit down and rest and think? Nothing! because we could have done what we did without that tense nervousness which so many of us think we must assume, to make others think we have important business on hand. If we only knew how much more force, strength and ability lies behind a calm exterior our aim would be to assume that pose until it became our rightful inheritance.

"Out of silence comes thy strength." It brings wonderful results, results that show us how our power is increasing. Try to be calm for a few days and watch the issue. You will marvel at your strength, be astonished at your success.

Be silent, patiently listen, and wait for the strength that is bestowed on all. It is like the ruby in value, a priceless treasure—a life force, in other words, which makes geniuses of men and women.

Begin tomorrow. Go slow but sure, knowing you are doing the right thing. Put aside all nervousness and hurry. You will be amazed at the results; people will come to you because that force being magnetic will draw all good things in your direction. Some may say, "I cannot do this. There is too much to be done in a short time." We need not go to the other extreme and become snails; but by striking the "happy medium," our success will come, perhaps slowly at first, but surely, nevertheless.—Exchange.

**SAVAGES USED "POISON GAS"**

Ingredients Were Different, but Object Was the Same as That Sought by the Germans.

As is well known, the Germans in the great war were anticipated by some savage tribes in the use of poisonous gas for war purposes. Nature quotes authorities to show that tribes like the Tupinamba and Guarani of the Brazil littoral and on the Rio Parana used poisonous gases in attacking fortified villages. Men went in front of the attacking party, each holding a pan with embers in one hand and ground red pepper in the other. When the wind was against the Spaniards they sprinkled the pepper on the embers. This was also done in attacks on the Spaniards in Venezuela. In the same way pepper was largely used in exorcising demons and evil spirits. The use of this pepper, known as Aji, would soon be discovered by these Indians, who cultivated the plant extensively. It was only necessary for some one to upset a basin of Aji into the fire and a hut would soon be cleared of its occupants. The use of the smoke in warfare would be a natural development.

A want ad costs little and often brings big returns. Nothing too big or too little to be sold by a want ad.

**PEACE CONFERENCE FORMALLY OPENED**

French President Urges the Formation of a League of Nations.

Paris.—The peace conference was formally opened with a speech by President Poincare, of France.

President Wilson nominated Premier Clemenceau for chairman of the congress. The nomination was seconded by Premier Lloyd George in an earnest tribute to the French premier.

President Wilson, in nominating Premier Clemenceau for chairman of the conference, delivered a speech in response to that of President Poincare and paid tribute to Premier Clemenceau.

President Poincare, in his speech, urged the establishment of a league of nations to safeguard humanity from further suffering.

Poincare declared the nations which made sacrifices in defense of right would lay down the rules for the league. Its aims, he said, would be to prevent wars and gain respect for the righteous peace of the conference is to establish. Calling attention to the fact that the German empire was born 48 years ago, President Poincare said it had ended its career in disgrace and had sunk into oblivion, perishing by the sword it unsheathed.

Premier Clemenceau, who recently declared for the old balance of power, came out in favor of the league of nations in his address.

Preliminary conversations over the structure of the league of nations are, strictly speaking, still in the stage of being discussed in meetings of the supreme council, and are not technically before the peace congress as a whole, but the fact that the congress has advanced this question to the foremost place in its program is taken to indicate that such progress is being made in the supreme council as to warrant expectation that a definite and somewhat detailed program will be soon evolved.

This program, it is believed, will present the common thought of the leaders of the United States, Great Britain and France and therefore may furnish a starting point from which all the peace delegates may participate. President Wilson is personally pressing forward this one feature to the virtual exclusion of all others.

With discussion now past the point where it seems to be agreed there shall be no super-sovereignty, nor a common police force and that the question of whether a nation shall contribute force in carrying out the decisions of the league will be left to each nation individually in each instance, the general plan being most talked about embodies an enlargement of the principles contained in the treaties negotiated by William Jennings Bryan. These provide for a delay of a year before declaring war and investigations by a special commission of all disputes.

**PRESIDENT GETS PRESENTS**

All Classes of People in Europe Send Gifts to Wilson.

Paris.—President and Mrs. Wilson came to Paris with a very modest collection of trunks and personal baggage, but they probably will be forced to take home a carload. Both Mr. and Mrs. Wilson have received so many gifts in the course of their stay in Paris and their visits to England and Italy that a large quantity of them probably will have to be taken to Washington on an army transport.

Gifts of all kinds and of all values began pouring in the day President Wilson arrived, and they still are coming in a never-ending stream from all classes of people.

Many of the presents are priceless, but the president values most those having a sentimental appeal. These have come principally from children in all parts of Europe and from families that have suffered by the war.

**Bolsheviki Get German Arms.**

Warsaw.—Bolsheviki troops have slackened their advance at the Polish frontier. The Germans are delaying their evacuation of Grodno for several days, although General Falkenhayne has retired to Suwalki and General Hoffman has gone to Koenigsberg.

Polish leaders allege Germans are selling arms to the Bolshevists. The latter are issuing proclamations that they have come to retore order. Dispatches state, however, that Bolshevist soldiers have been seen carrying banners inscribed with the words "Long Live the Red Terror" and "Death to Non-Workers."

**Fifth Loan To Be Last.**

Washington.—Only one more big war loan drive is planned by the treasury department, Secretary Glass stated. This will be the Victory liberty loan, to be floated probably the last three weeks in April. The amount will not be more than \$6,000,000,000 and may be \$5,000,000,000.

**LITTLE CHANGE IN BRITTANY**

Land of Romance Today Much the Same as It Has Been Through the Centuries.

Brittany since the early times of history has been the land of romance, saints and archbishops, knights and ladies, hobgoblins and wizards, crusaders and fairies. All of these are with beautiful impartiality scattered through the antique records of L'Armorique, as this region used to be called. Even the fabled sunken city of Is and the lost continent of Atlantis are supposed to lie off its coast. First cousins of the Irish and the Welsh, the inhabitants are by tradition, birth and character a race apart, silent, superstitious and devout and obstinate. Fine sailors and fillers of the soil, the Bretons have remained much as their earlier ancestors were. Their native costumes prevail throughout all villages and farmhouses. The men in blue blouses and straw hats trimmed with long black velvet ribbons, and longcloth waistcoats, embroidered in bright colors, loaded with buttons, sit beside many a wayside tavern, and the white headresses and heavy black serge costumes of the women are the same in cut and quality as in the days of the famous Queen Anne of Brittany.
