Don't Neglect Your Eyes

If you have pain in or over the eyes, or in the back of the head, headaches; if you see floating specks; if you have blurred eyesight; if everything gets black at times; if the eyes twitch involuntarily; if you see double; if you see rings around lights—there is something wrong and you should have them carefully examined by a skilled specialist.

Our 12 years' experience in scientific eye-sight testing and the fitting of correct glasses for the relief of eye-strain is at your disposal.

If we find glasses are not necessary, then we decline to supply them.

ABOUT FEATHER PILLOWS

What is more unsanitary than a feather pillow? You cover the pillow regularly with a nice clean pillow case, but the pillow itself is rarely if ever properly cleansed. Yet on account of the animal matter of which it is made, it really requires regular and thorough cleansing.

We wash your feather pillows without removing the feathers and dry them with pure fresh air, and in the constant agitation in our new process dryer thoroughly dries and sterilizes every feather and renders the pillow soft and fluffy.

Our charge for this service is 50c for the ordinary size pillow. Have our car call.
