

## Cottage Grove Witnesses

The Names of Cottage Grove Persons Familiar to All.

Who are the witnesses?  
They are Cottage Grove people—Residents of Cottage Grove who have had kidney backache, kidney ills, bladder ills; who have used Doan's Kidney Pills. These witnesses endorse Doan's. One Cottage Grove resident who speaks is Mrs. F. C. Halston, 447 S. Third St. She says: "I have tried different kidney medicines, but they have never done me a bit of good. Doan's Kidney Pills is the only medicine that keeps my kidneys in good order. Any one troubled with backache or other symptoms of kidney complaint should try Doan's, for I know they are reliable."  
Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Halston had. Foster-Milburn Co., Mfgs., Buffalo, N. Y. July 18-25

A faded carpet can be brightened and cleaned by rubbing with warm water and ammonia, with a little borax in it.

Alcohol can often be used instead of a cleaning fluid to remove stains, and it leaves no ring behind it.

A remedy for burns is raw linseed oil and eggs beaten together, half and half, and bound on the burn.

A good salad is made of shredded cabbage, sliced almonds and shredded coconut. Serve with mayonnaise.

### ADLER-I-KA AGAIN!

"I had a bad case of constipation, gas on the stomach and other bowel trouble. Twelve hours after I took Adler-I-ka I felt better and after continuing I consider myself CURED." (Signed) E. H. Beeman, Calispell, Wash.  
Adler-I-ka expels ALL gas and sourness, stopping stomach distress INSTANTLY. Removes ALL foul matter which poisons system. Often CURES constipation. Prevents appendicitis. We have sold Adler-I-ka many years. It is a mixture of buckthorn, cascara, glycerine and nine other simple drugs. New Era Drug Store.

### NOTICE OF SALE

Whereas by the last will and testament of A. H. Spare, deceased, which will was admitted to probate in the County Court of the State of Oregon for Lane County on the 15th day of January, 1915, power and authority is given to the Executor of said will and estate to sell and dispose of the real property of the said estate, and of the real property hereinafter described at private sale.  
Now, therefore, notice is hereby given that the undersigned administrator of the estate of A. H. Spare, deceased, with the will annexed, will from and after the 1st day of August, 1919, proceed to sell the following described real property, to-wit:  
Beginning at the South Southwest corner of the Henry Small D. L. C. No. 57, and running thence North 31.83 chains; thence east 37.06 chains; thence North 1.91 chains; thence East 7.10 chains to the center of the channel of the Coast Fork River; thence in a Southeasterly direction, following up the center of the channel of said river to its intersection with the West boundary line of the right-of-way of the S. P. R. R. Co.; thence South 29 degrees West, following said west boundary line of the right-of-way 8.10 chains; thence West 46.14 chains to the place of beginning, containing 149.82 acres of land, more or less, excepting therefrom a strip of land running along and near to and parallel with the west bank of the said Coast Fork River, heretofore deeded to Lane County, Oregon, by the said deceased for a public road, and containing 1.02 acres, more or less. All in section 32, Tp. 20 South Range 3 West of W. M. in Lane County, Oregon, at private sale at his office in Cottage Grove, Lane County, Oregon, for the highest price obtainable in cash.  
OLIVER VEATCH,  
Administrator with the will annexed of the estate of A. H. Spare, deceased. j1al

### NOTICE FOR PUBLICATION

Department of the Interior, United States Land Office, Roseburg, Oregon, April 1, 1919.  
Notice is hereby given that Tebe McGuire, of Cottage Grove, Oregon, on January 2, 1914, made additional homestead entry, Serial No. 09243, under the Act of April 28, 1904, for the NE 1/4 of NE 1/4 of Sec. 19, Tp. 21 S., R. 2 W. W. M., as additional to homestead entry, Serial No. 03475, patented, for the SE 1/4 of SE 1/4 of Sec. 18, Tp. 21 S., R. 2 W. W. M., and that upon completion of publication of this notice and payment of commissions, final certificate and patent will issue for the land embraced in the additional entry.  
The purpose of this notice is to allow all persons claiming the land adversely, or desiring to show it to be mineral in character, an opportunity to file objection to the application with the Register and Receiver of the United States Land Office at Roseburg, Oregon, and to establish their interest therein or the mineral character thereof.  
W. H. CANON,  
Register.

THE COURTESY DUE FROM THE DEALER TO THE CUSTOMER—WILL DO THAT PROMPTLY AND WILL SAVE YOU ENOUGH ON YOUR GROceries SO THAT THE NEXT TIME YOU WON'T THINK OF THE COST OF THE LITTLE EXTRA GAS YOU USE.

as to Come Around the Corner.

Hereafter convicts who violate their paroles by the commission of a crime will be returned to the state prison to serve the full maximum sentence without any hope of further consideration for parole by the governor or the state parole board.

Blame for the epidemic of small pox which has resulted in 650 cases in Portland since it began in December is fastened by Dr. George Parrish, city health officer, upon inefficiency and red tape in the Portland office of the United States shipping board.

Dr. F. W. Hollister of Portland was elected president of the Oregon State Dental association at the close of the annual convention in Portland. He has been secretary of the association for the past year and is a member of the state board of dental examiners.

Pendleton's newest financial institution is the Inland Empire bank. It started with a capital of \$250,000, which is exceeded by only two banks in the state outside of Portland. J. W. Maloney, for 35 years a resident of Umatilla county, is president of the bank.

Fred M. Hesse, of the Hesse-Martin Iron works of Portland, has been appointed by Governor Olcott a member of the state board of engineering examiners. He will take the place of J. C. Strange of Portland, who was unable to accept the appointment for business reasons.

With the shipment through Bend of a large quantity of lumber and tank materials by Jason Moore, who holds options on the nitrate deposits at Summer and Abert lakes in Lake county, it is indicated that there will be considerable development of these deposits this summer.

Oregon has nearly \$30,000,000 in highway building funds in eight for the years of 1919-20-21, according to information received by the department of industries of the Portland chamber of commerce from Roy A. Klein, secretary of the Oregon state highway commission.

All of the Oregon Congressional delegation was present at a hearing on the Hawley bill appropriating \$2,500,000 for the Roosevelt highway held by the house committee on public roads, in Washington. An appeal for the highway was also made by Louis J. Simpson of North Bend, Or.

Stolen property worth about \$1000 was recovered by the Portland police after a workman had plowed up two sacks of silverware and other articles from a cache at Sixth and Main streets. The stolen goods had been buried under the porch of an old house, which has since been torn down.

Jerome S. Mann, formerly cashier of the First National bank of Linnton, was found not guilty by a jury in the federal court at Portland of a charge of having misappropriated \$123,000 of the funds of the bank in connection with the financial manipulations of the J. Al Pattison Lumber company.

The largest vessels in the American battle fleet, soon to start to the Pacific coast, can safely and easily be brought into Portland harbor. This was established at a meeting of a special committee appointed by Mayor Baker to investigate actual channel conditions from Portland to the sea.

Upon the recommendation of Conrad Starlin, adjutant-general, Governor Olcott sent a letter to the war department at Washington, D. C., requesting that Major Percy A. Willis be appointed inspector-instructor for the Third Oregon infantry. Major Willis served for eight years in the national guard of Oregon, previous to his entrance in the United States army.

The law intended to prohibit the movement of cattle across the state line into Oregon before they have been inspected is inoperative in that it applies only to shipment of cattle by common carrier and not to driving them. This was the opinion of Attorney-General Brown in response to a complaint filed by S. O. Correll of Baker, secretary of the Oregon Cattle and Horse Raisers' association, who charged that many district attorneys throughout Oregon were neglecting to enforce the law.

The industrial welfare commission has accepted the recommendations of the special wage conference regarding hours and wages of women workers in Oregon. The new regulations will go into effect early in October. They provide briefly for a 48 hour week, with a minimum wage of \$13.20, with proportionate increases for apprentices, forbidding the employment of sheet music demonstrators or elevator operators in lodging houses, with certain exceptions, after 6 p. m., a minimum wage of \$60 a month of experienced adult office workers.

Deputy State Sealer William A. Dalgell is in receipt of reports from various points in Central Oregon to the effect that some person, representing himself to be an employe of the department of weights and measures, is testing and repairing scales and collecting fees therefor. Mr. Dalgell calls attention to the fact that under the present state law the office does not employ any person in that capacity, but that a sealer is located in each district, whose duty it is to test and inspect all weights and measures, and that no fee whatever is collected for that service.

# PRINCE ALBERT

the national joy smoke

NEVER was such right-handed-twofisted smokejoy as you puff out of a jimmy pipe packed with Prince Albert! That's because P. A. has the quality!

You can't fool your taste apparatus any more than you can get five aces out of a family deck! So, when you hit Prince Albert, coming and going, and get up half an hour earlier just to start stoking your pipe or rolling cigarettes, you know you've got the big prize on the end of your line!

Prince Albert's quality alone puts it in a class of its own, but when you figure that P. A. is made by our exclusive patented process that cuts out bite and parch—well—you feel like getting a flock of dictionaries to find enough words to express your happy days sentiments!

Tippy red bags, tidy red tins, handsome pound and half-pound tin humidors—and that classy, practical pound crystal glass humidior with sponge moistener top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

### WOOD WHEN MOISTENED DRIES MUCH QUICKER

Ancients Practiced in Perfection Process Coming Into Use Again.

The ordinary "seasoning" of wood is a tedious process, although the superior strength of dried wood makes it desirable for building purposes of all sorts. Curiously enough, wood that has been soaking in water for a long time dries out quicker, though it may contain vastly more moisture than fresh or "green" wood. The reason is that in green wood the pores are obstructed by resins and other solids, and when these are dissolved or washed away the drying-out process is quick and easy. We learn from "Engineering and Contracting" that an attempt is being made to utilize these facts in seasoning railway ties. Kiln-drying, we are told, is satisfactory only with small sticks. Beyond certain dimensions, the outside layers dry first and shrink, causing cracks and spoiling the wood. Says a writer: "In early English practice the seasoning of large sticks was carried on by immersion in sea water for a period of three years, more or less, the saps and resins were dissolved and washed out, and the pores of the wood left open and filled only by water. The subsequent drying was then easily, quickly, and uniformly carried on throughout the stick, and the resultant deposit of salt acted as an antiseptic just at the critical time in the modern process. This was perhaps the most perfect seasoning possible, or ever accomplished."

"In experiments made in the last two years involving an entirely new process of drying timber an effort was made to use the same process that nature does, and dissolve, neutralize, or wash out the sap and other liquids or semi-liquids which obstruct and close the pores, and to do this within a reasonable time, much faster than nature unassisted can accomplish the work. Hot water is more effective than cold water, and hot vapor or water is, in some cases, still more so. In the new process warm vapor, or, in other words, warm air, saturated with moisture, is circulated among the ties. The liquid components of the saps and resins, filling the vesicles themselves, expand with the heat and force their way out, to be diluted and carried away by the warm vapor. After some hours of this treatment, the amount of moisture is reduced by very slow degrees, until, at the end, it is practically dry and the timber is removed with not more than five per cent of moisture left in it. The rapidity with which this is done depends upon the size of the sticks and the nature of the timber, just as it does in other methods, but no subject has yet been found which did not, in the end, yield to treatment. Care is taken not to let the temperature of the kiln get above 100 degrees F., so that no injury is done to the fiber of the wood.

"It is believed that timber treated in this way is indestructible, except by fire, so long as it is kept dry; and even without further treatment it will undoubtedly long outlast unseasoned material."

### Sausages in the Oven.

We used to think that sausages were possible for breakfast, but we scorned them for dinner. Now we look upon them as worthy any dinner and somehow to most of us they really do taste better now that we know they are no longer particularly cheap. They should be very thoroughly cooked and this can best be done by baking them in a covered casserole from 30 to 45 minutes.
