

Delicate Mechanism

Despite its scope Swift & Company is a business of infinite details, requiring infinite attention.

Experienced men must know livestock buying with a knowledge of weight, price, the amount and quality of meat the live animals will yield.

Each manufacturing operation must be done with expert skill and scientific precision. A highly perishable product must be handled with speed and care to avoid loss.

Chemists, engineers, accountants, and other specialists are required to take care of our intricate problems.

Alert wisdom and judgment must be used in getting stocks of goods into the open channels of demand through our four hundred branch houses. Branch house organizations must show activity and energy to sell at the market in the face of acute competition from other large packers, and hundreds of small ones.

All these requirements of intelligence, loyalty, devotion to the task, are met in the personnel of Swift & Company. Yet the profit is only a fraction of a cent per pound with costs at minimum.

How can the workings of this delicate human mechanism be improved upon?

Do you believe that Government direction would add to our efficiency or improve the service rendered the producer and consumer?

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

Swift & Company, U. S. A.

18 cents a package

What you pay out your good money for is cigarette satisfaction—and, my, how you do get it in every puff of Camels!

EXPERTLY blended choice Turkish and choice Domestic tobaccos in Camel cigarettes eliminate bite and free them from any unpleasant cigarette aftertaste or unpleasant cigarette odor.

Camels win instant and permanent success with smokers because the blend brings out to the limit the refreshing flavor and delightful mel-

low-mildness of the tobaccos yet retaining the desirable "body." Camels are simply a revelation! You may smoke them without tiring your taste!

For your own satisfaction you must compare Camels with any cigarette in the world at any price. Then, you'll best realize their superior quality and the rare enjoyment they provide.
