PATHE

Stands for Something

Yet it is not an abbreviation. It stands for the best there is in phonographs. Pathe means to the phonograph what Sterling means to silverware. The Pathe sapphire ball does away with cutting and gouging of records. Always ready to go. No needles to buy or change. It will play any make of record but the Pathe records themselves are the best and guaranteed for 1000 times.

The most important Pathe feature, is the tone produced by the combination of the sapphire ball and the all-wood violin tone chamber. Not a shading is lost, not an expression missed. The reproduction sounds almost like an improvement upon the original.

The Pathe costs no more than others not as good. Come in and let us play a jeweled Pathe for you.

WED, AUG. 13—This blended program consists of a two part western drama entitled "Lone Larry" and a two part comedy, "Gymbells and Boneheads." Also a copy of the Universal current events.
