THE EXAMINATION OF THE EYE

We Render You Expert Service

The examination of the eye, to be complete, must take into consideration points far deeper than a mere test for vision. Not only do we correct any defect found in the sight, but we also test the strength of the rotary muscles and correct any weakness found there, so that the eyes may work in perfect unison and perform their functions without fatigue.

Toric and Invisible Bifocals

We prescribe Toric or curved lenses in all cases because they allow a wider range of vision, fit closer to the eye, and are more becoming. For persons needing glasses for both near and distant vision we supply bifocals which we have fitted with excellent success.

Program at Arcade Theater

SATURDAY, OCT. 18—We have MARY PICKFORD in "Johanna Enlists." The theme is based upon Rupert Hughes' absorbing story and affords "Our Mary" a delightful characterization. By all means see this picture.

SUNDAY, OCT. 19—ENID BENNETT in "When Do We Eat." This is an exceptionally interesting story of life in the middle west. Miss Bennett portrays the role of an actress who is a member of an "Uncle Tom's Cabin" company which falls into the hands of the sheriff. Come out and see the results.

MONDAY, OCT. 20—FRITZIE BRUNETTE in "The Sealed Envelope." Do you love mystery, thrills, suspense, love interest, romance and punch in feature pictures? Then don't miss seeing Fritzie Brunette in "The Sealed Envelope."

TUESDAY, OCT. 21—"Little Red Decides" is a screen adaptation of Wm. V. McCoy's well-known magazine story of the same name which appeared in the American magazine.

WEDNESDAY, OCT. 22—EDDIE POLO in "The Wild Rider," a daring western photoplay. Also a good two-reel comedy.

THURSDAY, OCT. 23—The fifth episode of the great serial "Red Glove," which involves the adventures of Billie, the heroine, who has climbed into the Hidden Valley by means of a rope.

FRIDAY, OCT. 24—We will have one of the latest pictures on the market, entitled "FAIR AND WARMER." We play this picture immediately after Eugene, where it is played October 23.

We can make it look like new. General repairing of all kinds on short notice.

Wishing to improve our facilities to examine the different parts of the body and to treat different diseases I have just installed at the Cottage Grove Hospital one of the largest and most powerful X-Ray machines that is made at the present time. The machine requires a special transformer and wiring and is installed in a room especially arranged for it. It will take an X-Ray picture of any part of a person's body in a fraction of a second and with it one can see the lungs, heart, stomach and bowels as well as the bones in any part of the body. It is used to treat diseases of the stomach, lungs—especially to detect tuberculosis, kidneys, cancer and many skin diseases; also used to detect gall stones, kidney stones and tumors. All interested are invited to call and see the machine in operation.

Yours respectfully,
DR. S. M. WENDT, SURGEON.
