Shoes Will Be Higher Next Year

U.S. PAT. 1,234,567

Due to a decrease in the production (caused by shorter work-
ing hours) and the abnormal home and foreign demand. We,
like every other shoe merchant, have already purchased shoes
for next spring's trade, and for every pair bought we have
paid an advance ranging from 15 to 25 per cent. So, when we
tell you "shoes will be higher," we base our claim upon actual
conditions which exist today. You could not invest your mon-
ey more judiciously than to buy enough shoes now to last
another year.

Space will not permit a detailed description of the shoes
we will offer during this sale, but you can rest assured that
included in the lot will be shoes for all kinds of people and for all occasions. Here
are the quantities and the prices:

EN'S AND MISSES'

ORS, WHICH WERE
