

Questions About Your Eyes

Is most of your work done within arm's length, requiring the constant use of your eyes?

Do your eyes get tired? Have headaches? Hold print farther away than usual? Does the print blur and run together?

Wouldn't the satisfaction of knowing the truth about your eyes be worth more to you than my charge for a thorough scientific examination?

Reports of excessive damage to the fruit and berry industry of the Willamette valley, due to the recent freezing weather, were emphatically denied at Salem by C. I. Lewis, secretary of the Oregon Growers association, and V. W. Brown, secretary of the Polk County Growers association. Especially does this denial apply to orchards, which the experts state are practically uninjured by the freeze.

Professor C. I. Lewis, one of the staff of managers for the Oregon Growers Co-operative association, who has made a deep study into loganberry culture, advises loganberry growers hereafter to delay placing their vines on the trellis until spring to prevent freezing.
