

SECOND NUMBER OF LYCEUM COURSE AT HIGH SCHOOL, THURSDAY, JANUARY 22

THE ARTISTS' TRIO

There is a charming variety in the program of the Artists' Trio soon to be heard here on the Lyceum Course. The evening combines novelty with real artistic excellence, featuring vocal solos, mandolin solos, readings, sketches and cartooning. Each individual is an artist and the combination makes a splendid entertainment company.

Vera MacKelvie, cartoonist, comes from the Chicago Art Institute, where she won an enviable reputation through her excellent draftsmanship. Her pictures have purpose as well as humor. Florence Thorpe and Alma Merriman are the other two members of this unique and artistic company.

NUMBER OF CARELESS MOTORISTS LESSENS

Misjudgment of Speed of Trains Is a Potent Accident Factor.

Carelessness in crossing railroad tracks by occupants of automobiles is slowly but surely yielding to the campaign of education conducted against grade crossing accidents by the press, schools, churches and railroads, according to R. J. Clancy, assistant to the general manager of the Southern Pacific.

For the year ending September 30, 1919, there were 44 grade fatalities and 161 injuries, compared with 51 fatalities and 205 injuries for the year ending September 30, 1918, a decrease in 1919 of nearly 16 per cent in the number killed and 24.2 per cent in the number injured.

This is an encouraging showing, particularly considering the increased number of automobiles in use. Nevertheless, during the year 1919, 452 automobiles were damaged or destroyed. Of these, 222 attempted to cross almost immediately in front of an approaching train; 116 ran into trains; 62 stalled on the track and were hit by trains; 6 skidded into trains or cars; 27 ran into and broke down crossing gates lowered to protect them from passing trains; 4 ran down and injured crossing flagmen trying to warn and protect them from approaching trains; 15 ran into crossing wantads.

signals, cattleguards, or were not sufficiently in the clear.

In practically every instance occupants of automobiles had unobstructed view of the track in both directions sufficient to enable them to observe approach of trains before reaching the crossing.

As in the past, most of these accidents involved passenger trains disproportionately to the number of trains of this class which continues to emphasize the belief that misjudgment of speed of passenger trains by occupants of automobiles is a primary contributing cause to such accidents.

An analysis by months discloses no distinguishing relationship between climatic conditions and crossing accidents as accidents occurred in like proportion during the summer and winter months, so that whether curtains are up or down does not appear to matter.

In other words, the causes of these accidents appear to narrow down to misjudgment of speed of trains; the minds of occupants distracted by conversation; shifting gears and stalling on tracks; noise of machine interfering with hearing locomotive whistle, bell and noise of train; inexperience of driver; not looking until about on the track and inability to stop on account of speed; and in practically all instances, attempting to cross without first making sure that it could be done safely.

A panacea for everything—Sentinel approaching trains; 15 ran into crossing wantads.

Council Proceedings

Jan. 5.—Regular meeting of city council.

All present except Councilman Swengel.

A. W. Kime elected chairman of meeting because of absence of mayor.

Communication was received from D. N. Melatuff demanding \$300 as settlement of claim of Mrs. Atwater for injuries sustained in fall on sidewalk and laid on table until next meeting.

On motion the matter of the repair of Sixth street was referred to the street committee with power to act.

On motion the marshal was instructed to have sidewalk repaired on Tenth street.

The following bills were read, audited and ordered paid.

W. W. McFarland, cleaning streets	\$ 21.75
G. R. Pitecher, salary and expenses	126.00
Mike Kibelbeck, work on sidewalk	18.00
Phil Jones, work on pipe line	3.60
Sentinel, ptg. water receipts	4.80
Sentinel, pub. proceedings	3.00
W. W. Oglesby, salary	10.00
J. E. Young, salary	55.00
C. G. Mfg. Co., lumber	1.25
Spriggs Bros., work on water wagon	14.00
Fire company, salaries	18.00
Electric Co., lights Dec.	233.83
Knowles & Graber, hardware	3.85
John Wallace, repairs to roof of city hall	33.00

On motion council adjourned for two weeks.

J. E. YOUNG, Recorder.

Household Hints

When boiling common starch sprinkle in a little fine salt; it will prevent it from sticking.

To prevent a mustard plaster from blistering, grease the skin before applying.

Peel the onion from the root upward and you will have hardly any trouble from the eyes watering.

If cold starch is made with warm water and the articles left in it over night they will iron easier and be much stiffer.

A few slices of peeled Irish potato dropped into hot fat in which doughnuts are cooked will prevent the cakes from absorbing too much grease.

Should the knob come off the lid of the kettle a screw should be slipped through the hole from the inside of the lid and the old knob or a common cork screwed on the protruding end.

A little ammonia in water cleans white paint beautifully.

When one needs a stimulant, one of the best is hot milk.

Potatoes that are shriveled should be parboiled before baking.

A mixture of vinegar and meal is splendid to remove fruit and vegetable stains from the hands and fingers, and it also makes them soft and smooth.

Vinegar and spice simmered on the back of the stove while cooking cabbage will kill the odor.

Leave your oven door open when not baking. It will help heat the house and your oven will remain serviceable much longer and do better work than if kept closed all the time.

On removing bread from the oven, wrap the loaves in a clean cloth wrung out of warm water and let it remain until cold. The crust will be as soft as the rest of the bread. It is much cheaper and more healthy than greasing the crust.

To clean stained eggs, dip them in vinegar and rub them off with a clean dry cloth. Badly stained eggs may be left in the vinegar a couple of minutes before rubbing.

RATES ON LOCAL READERS—Readers in the "Tales of the Town" columns, 8c the line up to an amount of \$3 in any one month and 6c the line thereafter. Reading notices anywhere else in the paper, 6c the line.

There's hardly anything a Sentinel wanted won't do, but if one doesn't do it, try two.

Program at Arcade Theater

FRIDAY, JAN. 16—PRISCILLA DEAN in "THE WICKED DARLING." Priscilla Dean as Mary Stevens is an accomplished pickpocket. She is the last person in the world you would suspect of having a heart until she learns to love a man who treads the straight and narrow path. What follows will be a source of good entertainment. Do not fail to see Priscilla Dean, the wicked darling.

SATURDAY, JAN. 17—FRED STONE in "UNDER THE TOP." This is a circus picture. Fred Stone plays the part of a country guy who falls in love with a circus man's daughter. Ella Hail, who plays the part of Pansy, is an old time favorite with our patrons. James Cruse also has a leading part. The cast insures the quality of this production which will be shown both afternoon and evening. Prices 10c and 25c.

SUNDAY, JAN. 18—DOROTHY GISH in "THE HOPE CHEST." The "Hope Chest" means matrimony, of course. But don't think the marriage is the end—not when the husband's family are rich snobs and the girl a common waitress! But she teaches them some lessons in democracy before she gets through. Come and see her do it. Matinee at 2:30, evening at 7:30.

MONDAY, JAN. 19—MARIE WALCAMP in "THE RED GLOVE." BEN WILSON and NEVA GERBER in "THE TRAIL OF THE OCTOPUS." This episode finishes the serial "The Red Glove." Do not miss seeing the finish of this amazing story. Also you will want to begin our wonderful new serial, "The Trail of the Octopus." "The Devil's Trademark" is the title of the first episode. What was it? You must not fail to be present. The manager is planning to give a series of valuable prizes to the persons who will save the daggers given out each night until by exchanging or by other means they can acquire a set of daggers spelling "Trail of the Octopus." SAVE YOUR DAGGERS. A big 7-reel show for 10c and 20c.

TUESDAY, JAN. 20—ROY STEWART in "UNTAMED." Oh, joy! A western story that departs from conventional lines! Here we see Spanish steel and treachery pitted against the honor of an upstanding American ranchman. It will please you. A two-part comedy also.

WEDNESDAY, JAN. 21—MARGARITA FISHER in "THE HELLION." Everyone knows who Margarita Fisher is. She is Oregon's own movie star, having been born and raised in Oregon, and personally known to several of our patrons. But do you know what a hellion is? Don't you go to Webster's to find out—you just go to the Arcade theater instead. Remember this, however, the star of "The Hellion" is not the hellion of the story.

THURSDAY, JAN. 22—MABEL NORMAND in "MICK-EY." Everyone has gone wild over "Mickey." You will be, too, when you see her as the lovable harum scarum little tomboy who is always getting into all sorts of scrapes that make you laugh and cry—whether with old Joe in the mountains or later with her aunt in the city. This is our week's special offering. For the benefit of our out-of-town patrons we will give a special matinee. Prices, both afternoon and evening, 15c and 40c.
