## EVERYBODY ELIGIBLE TO RAILROAD PRESIDENCY

Have you a boy who wants to be a railroad president? If so, here's his chance.

Sixty thousand scholarships a year will be awarded by the Southern Pacific. Appointments will be made by division superintendents and the heads of the various departments of the railroad, who are charged with the responsibility of not alone securing appointees, but watching their progress carefully and placing them upon graduation. Business men in the various towns along the lines of the Southern Pacific will be asked to recommend young men between the ages of 18 and 23 who will be sent to the agency school in San Francisco, and there prepared for positions in the freight and passenger departments and the general offices. They will be paid a nominal sum while being instructed.

Superintendent of Telegraph F. I. King, who has general charge of the scholarship, calls attention to the fact that most of the railroad presidents of today began in positions such as the students will qualify for. J. J. Miller, of San Francisco, will be the instructor.

## BANK PLANNING TO BOOST DAIRY INDUSTRY OF LANE

\$50,000 Is Appropriated by Eugene Financial Institution.

Fifty thousand dollars was appropriated by the Bank of Commerce of Eugene at its annual meeting for the purpose of lending to the farmers of Lane county at a reduced rate of interest to assist them to build up their herds of livestock.

This money will be available for the purchase of pure bred stock, especially dairy cattle, although the bank will encourage the raising of a high grade of sheep and hogs, according to announcement of the bank.

Ever since this bank has been under its present management it has been active in encouraging the livestock industry, and many a farmer and dairyman owes his success to the institution on account of accommodation with timely loans for the purchase of pure bred stock.

Road Patrolmen Appointed.  
The county court has appointed the following patrolmen for road districts in this section of the county:

No. 13, Fletcher England; Nos. 14, 15, 68, 69, Ed. Tullar; No. 16, Lee Bailey; No. 17, R. C. Glendon; Nos. 24, 56, 64, W. W. Hawley; No. 76, Finley Whippis.

One thing we can thank automobiles for—when they come into general use among farmers, land ten, fifteen or twenty miles from a railway will be nearly as valuable and accessible as that nearer.

Thieves broke into a city restaurant the other day. Three beefsteaks were the only valuables removed, and, as the place carried \$700 burglary insurance, it is thought that the loss is fully covered.
