Warner's Rustproof Corsets.

They will not rust, or break or tear.

Women wear Warner's because
Warner's wear.

They may be worn and laundered, and worn again. They will out-wear any other corset at the same price.

They retain their fashionable lines because of their "wear-proof" construction.

They are comfortable all day long, in any activity, standing or sitting.

Double rust-proof boning throughout, and every steel reinforced so that it cannot punch through the cloth.

The cost of a corset should not be compared by dollars paid into the store, but by the number of days it is worn.

The construction of Warner's corsets is "Standard," which means that every item of material which enters into them is equally long-lived. A Warner's corset will not wear out in spots.
