Complete Your Attire

Shoes are the most conspicuous part of a woman's attire. They make or mar the entire effect of her costume.

To women who are in doubt as to what is fashionable in footwear, we suggest that they see the new models we have just received from Utz & Dunn, makers of "Style Shoes of Quality."

Their style is originated by clever designers to harmonize perfectly with present day fashions in dress. This feature together with the fine quality of these shoes should be of great value to women when selecting their footwear.

The Modern Woman

is much more useful—and probably more ornamental than—than woman use to be.

She is busy, energetic, full of enthusiasm; but she is a bit hard on her clothes—and especially her corset.

Warner's Rust Proof Corsets hold their shape through the hardest of hard wear; they allow you to move about, exert yourself, work, play—even rest—and always assure you of comfort and a well groomed appearance, and they are

Guaranteed Not to Rust, Break or Tear

Front or back lace models to fit every figure.

Burkholder Corner

Cottage Grove, Oregon

SOMETHING For NOTHING?

Something for nothing? It can't be done. Nor do we promise it. The man who responds to such a promise usually gets it the other way—nothing for something. That's expensive.

Merchants are in business to serve—and must not only make expenses, but an honest profit in order to make a living, for their employes as well as their own families.

We prefer to promise less and give you more. This invites the patronage of level-headed Americans who buy with their eyes open—men and women who understand the economy of quality—folks who want the best and will pay what it is honestly worth—men and women who have faith in a concern that asks an honest price for earnest goods.

Kuppenheimer good clothes will please you. They are full value, finely tailored, good woolens, sensible styles. Kuppenheimer clothes are economical clothes.

HOW ABOUT A New Hat for Easter
