Independence Depends Upon Having a Fordson

With the invention of the tractor the farmer has become an agriculturalist and soon may have to have a laboratory and business office for the proper and dignified conduct of what is now a regular business. The farmer is now not only the most independent of men but the tractor is making him a man of independent means. The Fordson is the most practical for the farm of the Cottage Grove country and the difference in the price is something that the business-man farmer will take into consideration. Always glad to have the chance to demonstrate.

"STERLING" COMPOUNDED FEEDS

It is an undisputed fact that honestly and accurately compounded feeds give better results than any straight grain feed. When we started in this business we were thoroughly convinced that the public cares as much for quality as for price. Believing this, our motto has been "A Higher Feed Value—for Less Money." And because we have constantly kept this in mind, "Sterling" Compounded Feeds are recognized as being all the name implies.

Our specialties are horse feed, hog feed, and dairy feed, for which we make the claim "There are none better."

Call and see us, and by comparing our prices with those of other compounded feeds, you will find opportunities and bargains here that you can't find anywhere else.

It Is Easy To Imitate Names

The public is constantly being swindled by imitations, counterfeits and substitutes that resemble in name and appearance Foley's Honey and Tar Compound. It is because the original Foley's is so good, so reliable and so well known that these frauds find sale.

Always Has It In His Home
T. J. McColl, Athens, O., writes: "We have used Foley's Honey and Tar in our home for several years and find it almost invaluable for coughs and colds, and especially for croup for our children. We are never without it and cannot too highly recommend it for coughs, colds or croup for either grown-up people or children."

Foley's Honey and Tar COMPOUND

IS PLEASANT TO TAKE, and soothes the raw, inflamed surfaces; stops the rasping, strangling feeling in the throat. It is made of the purest, freshest and finest ingredients to be had, contains no opiates or other harmful drugs, and costs twice as much to make as any imitation of it.

For more than thirty years
Foley's Honey and Tar has been
used with satisfaction and success.

BONDING WILL GIVE US ROADS

WOULD YOU?

If "A" were to undertake the construction of a house without plans, and after a time "B" undertook to carry on the work without any plans and he later turned it over to "C" would you expect a finished product that would be satisfactory in point of design and workmanship and the money employed in its construction judiciously expended?

WOULD YOU?

DO YOU

know that Lane county has been building roads for years and years without any definite plan? Do you know that the bonding plan now before the people is the first one that compels a definite positive road building plan regardless of who directs the work and that every cent to be expended in this plan of road work is according to a prearranged plan to be approved by the people?

DO YOU?

ARE YOU

of the belief that an uncertain plan in your private construction affairs, which is beyond question unwise, is any less unwise in public business administration? Are you satisfied to go on building roads from year to year without any definite program in view? Or are you ready to adopt for public affairs the same wise, definite policy you would demand in private affairs?

ARE YOU?

CAN WE EVER CONSTRUCT A COMPLETE SYSTEM OF GOOD ROADS BY BUILDING A MILE OF GOOD ROADS HERE, A MILE OF GOOD ROADS THERE, HERE A LOAD OF GRAVEL AND THERE A LOAD OF GRAVEL AND MUDHOLES BETWEEN?

YOU ARE NOT,

obliged to pay a high rate of interest, as the bonds draw but 5 per cent and cannot be sold below par. Your tax money is worth 5 per cent. A definite road building plan will be cheaper than a hit and miss plan and will give us roads without an exorbitant tax as the tax amounts to only \$1.67 per year on each \$1000 of assessment. This is cheaper than special road taxes.

ROADS EVENTUALLY—WHY NOT NOW? That we may get the use of them and have 20 years in which to pay for them. During this time they will pay for themselves time and time again.

LET US FEED YOUR CHICKENS

We have a full line to choose from. Scratch feed for the laying hens—also a fine variety for the little chicks. Two brands to choose from. Rolled oats containing absolutely no hulls. Egg producer. Cracked corn. No. 1 oats. Feed wheat. Milo maize. Sunflower seed. In fact, everything that it takes to make the hen a heavy producer. Come and look our goods over.

THE COTTAGE GROVE FLOUR MILLS

IT IS A PLEASURE TO SHOW OUR TOOLS

to people who know the good from the inferior. We carry tools for all trades and all purposes and can guarantee them to be the best of their kind. See our saws, hammers, patent screw drivers, trowels and all the rest. They are a treat to the good mechanic's eye.
