T. G. Sudtoll, Special Agt., Standard Oil Co., Cottage Grove, Ore.

Every patron of The Sentinel is helping to give Cottage Grove a newspaper which eminent authority has stated to be one of the best country newspapers published anywhere.

**"They're Talking About It Everywhere"**  
says the Good Judge

How much more genuine satisfaction you get from a little of the Real Tobacco Chew than you ever got from the old kind.

The good, rich, real tobacco taste lasts so long—you don't need a fresh chew nearly as often. That's why it saves you money.

Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles

RIGHT CUT is a short-cut tobacco

W-B CUT is a long fine-cut tobacco

Wm. W. Brown Company, 1107 Broadway, New York City

## Good Roads Committee on Methods of Procedure

The executive committee of the Lane County Good Roads association met Saturday afternoon and in a prolonged session discussed future plans for the organization and drew up detailed recommendations to be presented to the county court regarding the issuing of bonds and the program of road construction. The statement reads: To the Honorable County Court of Lane County, Oregon:

Gentlemen—Lane county has just passed through a campaign to authorize the issue of \$2,000,000 of county bonds bearing 5 per cent interest, to be paid off in 20 equal annual payments beginning with the sixth year, the proceeds to be used in the construction of certain roads designated, adopted and known as the primary road system of Lane county.

The adoption of this road program does not mean that the county court should rush headlong into extensive road construction regardless of prevailing conditions, but it does mean that the court has been clothed with the power to use the credit of the county by issuing and selling, from time to time, the bonds of the county to secure the money needed and that can be used wisely, economically and judiciously in road construction, and so faster.

Objections to the road bond program were honestly made by many of our people for the reasons that prices of material are very high, labor scarce and conditions unfavorable at the present time for a large amount of construction work, and also on account of the present bond market.

These objections were legitimate and command serious consideration. The Lane County Good Roads association, in urging the people to give the county court this authority, assured them that we could depend on the court using good judgment in both selling the bonds and proceeding with the construction work.

The Lane County Good Roads association has been absolutely fair with the people of the county in presenting the question and feel the responsibility of watching the work as it is done and aiding in every way possible to get as much practical, permanent road work done for the money expended as is possible to get.

Because of the responsibility we feel resting upon us and our desire to serve, to the best of our judgment and ability, all the people of the county, we beg to urge upon the court the following program:

1st—That no bonds be sold for less than par. (The law forbids it, and even if the law did not, for good business reasons it should not be done.)

2nd—That the bonds be offered in small amounts and small denominations and the people of Lane county be urged to buy them, because they are a good investment and will keep the money and the interest at home.

3rd—We recommend that no extensive construction work be undertaken under any conditions that will take needed labor from the farms, mills, camps or other industries, and until conditions settle to a normal and standard level, that you proceed carefully with the road bond program.

4th—We recommend that all of the road building equipment and organiza-

tion be worked steadily every day the weather will permit, and when the money available from our regular taxes is exhausted, that the credit of the county be used by offering for sale enough, but no more, bonds than necessary to keep the equipment and organization active until taxes are paid the following year.

5th—Next year, or whenever business conditions become settled, labor more plentiful and efficiency greater, that you then proceed as fast as possible to permanently locate, properly grade, thoroughly drain and surface with macadam according to program, the roads designated and shown upon the road map of Lane county that was presented to and adopted by the people at the recent special election.

6th—We recommend that you immediately install and keep a practical, efficient cost system on all road and bridge work, whether it be maintenance or construction work. A system that will enable the court and the taxpayers to know exactly what every part of every project or section has cost and is costing the county.

The Lane County Good Roads association, its executive committee and its officers desire to merit, hold and enjoy the confidence of the people of Lane county, and they also desire the county court to merit and enjoy this same confidence, and we appreciate that this can only be done by all of us proceeding in harmony to secure the best results possible to attain.

Our people want more and better roads, but they also want the best value that can be had for the money they provide to build them with.

Assuring you that the association and its officers are at your service, we beg to remain,

Very truly yours,  
FRED FISK, President,  
M. B. GLASS, Secretary,  
LUKE L. GOODRICH, Treasurer,  
E. J. ADAMS,  
G. W. GRIFFIN,  
E. E. MORRISON,  
D. E. YORAN,  
C. M. YOUNG, Executive Com.

There's hardly anything a Sentinel wanted won't do, but if one doesn't do it, try two.

## THE FORDSON WAY

Is the only way for the live, progressive, up-to-date farmer. Farming has become both a business and a science. No longer need it be a drudgery. The Fordson tractor is the solution. Your son or your daughter will be glad to help when they can ride a chug-chug and handle the steering gear. It will save its cost in a short time in the saving of feed bills. Expense stops the moment you shut off the gas and you never have to worry about feeding it, rubbing it down or cleaning out the stalls.

## California's O-K

The State of California has placed her unqualified O-K on Horse-Shoe Tires by specifying them exclusively for all state owned cars.

This sixty-five thousand dollar contract was placed after Horse-Shoe Tires had proven their actual superiority. If a tire can make so good on the heat shrouded deserts, the snow clogged mountain passes and jagged mountain trails of California, do you wonder it is making so good right here? Let us tell you more about them.
