Foiled!

We don't claim that the F. & E. check writer and protector can not be beaten, but we do claim that it never has been beaten—and we do claim that the \$10,000 guarantee against loss which goes with each machine puts all the worry up to us. You can not be beaten unless a loss exceeds that amount—which is unthinkable.

Do you realize that in these modern days no one is considered a safe and conservative business man unless he has a bank account which he protects with a modern check writer?

Do you know that the F. & E. check writer saves a quarter to a half minute over all other machines on every check you write? If your time is worth what any successful business man's time should be, you save in time every year the cost of an F. and E. machine.

The price of an F. & E. check writer and protector is very moderate.

THERE'S A LIMIT TO WHICH THE EYES CAN BE ABUSED AND STILL RETAIN THEIR EFFICIENCY.

Continuous reading by artificial light causes much eyesight distress. This, of course, can be offset by properly fitted glasses.

Why neglect your eyes, when you have so easy access to the services of an eyesight specialist.

For those who should have two-range glasses there's no satisfaction like
