

1,600 Miles

—Not a Cent for Repairs

This is what one of this year's Buick owners reports. Of course he does not know how much farther he is going to run without repairs. Others probably would make the same report if questioned. Of course, 1600 miles without a cent for repairs may not be extraordinary, or even unusual, but it does show that the Buick maintains its record for low upkeep, a record of which it is proud. It is the total cost of your mileage that counts, not merely what you put into gas. The Buick is afraid of no comparison made on this basis. Besides that, it is a car of classy lines and appearance and all at a moderate price.

"NOW-A-DAYS"
says the Good Judge

A man can get a heap more satisfaction from a small chew of this class of tobacco, than he ever could get from a big chew of the old kind. He finds it costs less, too. The good tobacco taste lasts so much longer he doesn't need to have a fresh chew nearly as often. Any man who uses the Real Tobacco Chew will tell you that.
