

Coats, Suits and Dresses in an Opening Review of Utmost Interest Saturday, September 18

When one gazes upon this collection of new autumn wear, it seems that each and every garment was made to make some woman more charming—to add to her smartness and beauty—and every woman who will take the time to inspect the many models and fabrics shown will find several garments styled to her liking. Reproductions and adaptations from the newest and most successful domestic productions afford a choice that is not to be surpassed anywhere.

In fact the entire collection presents a wonderfully attractive array of unusual modes whose beauty is equally indebted to fabrics and the skill with which they have been handled. If further reason need be added as to why you should see them soon we urge your attention to the prices quoted below.
