Help Your Moulting Hens

Dr. Hess Poultry Pan-a-ce-a

THINK of the amount of hen energy, vitality and red blood required to grow a thousand feathers—the average plumage! A moulting hen needs good health—good appetite—good digestion.

helps poultry through the moult and starts pullets and moulted hens to laying. It contains tonics for the appetite, tonics to aid digestion. It tones up the dormant egg organs. It contains iron that gives a moulting hen rich, red blood and a red comb. No disease where Pan-a-ce-a is fed. By all means feed your moulting hens Dr. Hess Poultry Pan-a-ce-a.

We handle the Dr. Hess Line. Call on us.

Eyes Fail at Forty-five

No matter how good the eyes may be, along about the age of forty-five reading sight begins to fail.
This law is inexorable with the human race. If proper correcting glasses are promptly obtained no harm to the eye will come; if not the overstrained effort in reading will result in serious injury. But remember when getting glasses that poor ones are worse than none at all.
I guarantee absolute satisfaction in every case undertaken.
