TAX OF 12 BILLIONS IN 3 YEARS ASKED

Four Billions Annually Is Recommendation Made to Congress.

Washington.—The nation will face a continuation of the annual tax bill of four billion dollars for a period of at least three years if congress adopts recommendations drafted by treasury officials and which, it was understood, have been laid before Secretary Houston for approval.

Mr. Houston, it was said, probably will include such recommendations in the form of an analysis of the government's financial condition in his forthcoming annual report to congress. The analysis will show, and accompanying recommendations will suggest, it was said, that a three-year program for tax revision is required in order to meet maturing government obligations and cover current federal expenses and that approximately eight billion dollars in victory notes, war savings securities and treasury certificates of indebtedness will be due for payment within the next three years.

Recommendations to be made by Mr. Houston, it was understood, will propose abolishment of the excess profit taxes in their entirety and the substitution thereof of a graduated income tax of a substantial deeper cut than under present revenue laws. It was believed the new income taxes would apply only to incomes above \$5000 annually and that provision would be made for a graduated increase even on the additional tax as the amount of income grows larger.

EVERY STREET IN COTTAGE GROVE

Has Its Share of the Proof That Kidney Sufferers Sock.

Backache! Kidneys weak! Distressed with urinary ills! Want a reliable kidney remedy? Don't have to look far. Use what Cottage Grove people recommend. Every street in Cottage Grove has its cases.

Here's one Cottage Grove man's experience.

Let J. H. Baker, prop. blacksmith shop, 942 West Main St., tell it. He says: "I have used Doan's Kidney Pills with benefit and am glad to endorse them. I was troubled with attacks of kidney trouble and my back was weak and lame. My kidneys annoyed me by their irregular action. Doan's Kidney Pills have always helped me when I used them for these ailments, strengthening my back and kidneys."

Price, 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Baker had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. Nov. 13-19

11,000 SEATTLE MEN TO SHARE IN BONUS

Seattle, Wash.—Eleven thousand Seattle men, one-fifth of the total number estimated to be residents of the state, will be eligible to participate in the distribution of the state soldiers' bonus appropriation of \$11,000,000. American Legion officials state. Estimating the length of service for these men as being, on the average, equal to that of other service men in the state, officials believe the Seattle men will receive \$2,200,000.

Service women, such as nurse corps members, will benefit from the act, the same as men, when they are in all other respects within the terms of the act.

A bona fide resident of the state of Washington, who is a citizen of the United States, and who served with Canada, England or any of the other allied powers between the dates fixed in the act, is entitled to the bonus.

The eligibility of a service man to participate in the bonus depends upon his ability to establish residence.

OPEN EXCHANGES WANTED

Privilege of Collectively Selling Products Demanded.

Chicago.—Request that the federal trade commission and the attorney-general or other public authority be called on to take necessary steps to open grain exchanges of the country to membership of co-operative companies, unless the exchanges act themselves, was made in a resolution adopted at an executive session of the farmers' marketing committee.

No very strong, permanent or extensive co-operative marketing organization is likely to be built up unless economic necessity forces a great number of farmers into it, a committee representing mid-West farm bureau federations reported to the Farmers' Marketing committee of an investigation of co-operative organizations on the Pacific coast.

The investigation was undertaken to find whether the Pacific Coast system could be adopted to the co-operative marketing of grain and other mid-West farm products.

Wholesale Clothing Prices Drop.

Chicago.—Men's clothing for immediate delivery was offered at prices 10 to 50 per cent below present wholesale prices. The occasion was the opening of the thirteenth semi-annual buying convention of the United National Clothiers in Chicago. The convention is being attended by dealers from seventeen middle western and western states.

Non-Partisan League President Silent.

Fargo, N. D.—A. C. Townley, president of the non-partisan league, had no statement to make regarding the successes and defeats which the league met in various states during the election he said. "I prefer to do my work and let the results talk for themselves" he said.

"State-Wide" Telephone Service

Our efforts are constantly directed to the extension and improvement of "state-wide" telephone service. Large and small communities are dependent upon each other, commercially and socially. Good telephone equipment in the cities and towns of Oregon, with good construction and well maintained "long distance" pole lines and wires between, mean their mutual convenience and profit.

The value of any telephone is proportionate to the number of other telephones which may be connected with it. In Oregon there are approximately 138,000 telephones connected with our system. Ideal telephone service means prompt connection of any one of these with any other and the least possible loss in strength and distinctness in the conversations that follow.

Our entire plant is engineered and constructed with the object of rendering a satisfactory "state-wide" service sufficient in facilities available and with these facilities efficiently maintained. For this purpose the telephone equipment must be better, local and trunk wires must be of proper size and type, and central offices and switchboards must have additional apparatus to accommodate and care for the long distance circuits.

Before the troubled period of the war we always aimed to maintain "spare" or reserve plant—that is, plant ahead of immediate needs, thus insuring prompt and more satisfactory compliance with demands for service as they arose. During the war this reserve was exhausted as the materials we use were required and properly taken by the government and those industries given priority consideration.

With the reconstruction period, as is the case with all other lines of business, our problems have continued to an unexpected degree. We are still hampered by shortage of materials and delayed deliveries.

We realize the requirements of our long distance patrons. We have a comprehensive and well defined program designed to provide additional toll circuits sufficient to meet the present and constantly growing demands.
