F. C. COFFMAN

I Believe—

I am right in the conclusion that thinking people do not want bargain glasses any more than they would want nature to endow them with a pair of bargain eyes.

My work is and always will be as correct as it is possible to make it. I must give satisfaction to increase my business.

If you will favor me with your patronage I will see that you will pay only a fair price, and I will also guarantee you satisfaction, so much that you will be perfectly willing to recommend me to your friends as a safe and reliable place to get their eyes fitted.
