

ARCADE THEATER WEEKLY PROGRAM

Fri.—"The Mill on the Floss." A drama of the famous book by George Eliott. The story takes Maggie and Tom, brother and sister, thru a long series of happy and unhappy experiences from the time they "roamed the daisied fields together," to the final scene upon the swollen river.

Also showing the making of a box of candy.

Hoot Gibson in one of his famous "Two Reel Westerns."

Sat.—"The Miracle of Money," by Hobart Hanley. A romance of old maids with young hearts.

A Snub Pollard comedy.

Paramount Week.

Sun.—Mon.—"What's Your Husband Doing?" Douglas Mac Lean and Doris May. When he is called away on business—sitting up with a sick friend—detained at the

office on a rush job—Do you ever wonder? Have you ever suspected? See the picture and know the worst.

Comedy, "Edgar the Explorer."

Tues.—Wed.—"John Petticoats," by Bill Hart. William S. Hart a burly lumberman who inherits a modiste shop; Can you imagine him as an impresario of silks and laces? There was no way out. His uncle had willed him a modiste shop, and he had to leave his lumber jacks and run it.

Thurs.—"Paris Green," by Charles Ray. Another of those wholesome, human country boy stories that have made Chas. Ray famous. A story of Paris and a Jersey farm, and how they kept him on the farm after he had seen "Gay Paree."

Sat.—Wallace Reid.

HOUSEWORK IS A BURDEN

Woman's lot is a weary one at best. But with backache and other distressing kidney ills life indeed becomes a burden. Doan's Kidney Pills have made life brighter for many Cottage Grove women. Read what Mrs. Narcissa L. Smith, 118 N. I St., Cottage Grove, says: "About a year ago my kidneys were out of order and I suffered a lot with my back. I could hardly keep going at times and frequent dizzy headaches made me miserable. My work was burdensome and I often neglected it. My kidneys acted irregularly also. I read of Doan's Kidney Pills and used them as directed. Doan's cured me of the backache and all other signs of kidney complaint."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Smith had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

AUTO MANUFACTURERS RECOMMEND REGULAR CRANKCASE CLEANING

The manufacturers of automobiles recommend in their instruction books that the crankcase be drained and thoroughly cleaned at regular intervals. The reason for this is to avoid unnecessary wear on the engine which would be caused by the continued circulation of contaminated oil, states Mr. Long, of Spray, Long & Cruson.

Regular cleaning of the automobile crankcase is the first and easiest aid to better engine performance and to longer engine life. The wear and tear of engine operation causes steady accumulation of road dust, carbon, fine metal particles and other impurities in crankcase oil. This gritty contaminated oil circulates through the engine, impairs its performance and ultimately leads to rapid depreciation and repairs. The oil, like the blood of the body, circulates through the engine and carries away all dust and dirt at the same time that it lubricates, but unlike the blood of the body, it has no way of cleaning itself, as the blood does through the lungs. For this reason it is necessary to drain out the old oil at regular intervals and to flush out the crankcase to avoid deposits of dust and dirt which might otherwise contaminate the fresh oil as soon as it is put in the crankcase.

Cleaning the crankcase is a job generally neglected. To meet the need of regular cleaning of the crankcase, Modern Crankcase Cleaning Service has been established at first-class garages and other dealers on the Pacific coast. These garages and dealers use a new scientific flushing agent that cleans out old oil, dirt, grit and other impurities and does not impair the lubricating efficiency of the fresh oil used.

The service is rendered for a nominal charge in addition to the cost of the necessary gallon of flushing oil and the fresh lubricating oil poured into the crankcase after it has been cleaned. Garages and dealers giving this service are designated by a blue and orange sign bearing the words Modern Crankcase Cleaning Service.

There ought to be some statutory provisions about admission to the hall of fame.

It takes a patriot to fill a public job in these days of investigation, but there is no dearth of patriots.

It's peculiar how the secrets of a young couple in love, told only in the lowest whispers in the darkest corner of the room, seem almost as well known to the world at large as to the two directly concerned.

It's pretty exasperating to a fat man to have a lean man walk in his shadow on a hot day and laugh at him.

GERMANY WINS IN UPPER SILESIA

Plebiscite Strongly Favorable to Teutons, According to Official Returns.

Berlin. — Germany won an overwhelming victory in the plebiscite held in Upper Silesia to determine the future national status of that region, according to official returns received. Provisional returns published in newspapers here show that in Oppeln, Germany received 20,000 votes to 11,000 for Poland.

In Tanowitz the Germans cast 85 per cent of the ballots and in the town of Beuthen they cast 78 per cent.

In the Beuthen country districts the vote stood: Germany 59,222; Poland 62,040.

In Koenigschuette the Germans received 32,000 and the Poles 10,851, and Kattowitz and country districts gave the Germans 72,831 and the Poles 66,187, the town of Kattowitz voting German by 93 per cent.

In Hindenburg the Germans cast 36,676 votes to 31,625 by the Poles, while in Kreuzburg the German vote was 33,980 to 1556 for the Poles.

The plebiscite area involving 5000 square miles of valuable mineral lands, including coal, iron, zinc and lead, is the largest territory to decide its nationality under the peace treaty. Germany has insisted it must have upper Silesia to meet her reparation payments, while Poland equally urged its need for that nation's welfare.

Former residents, both Polish and German, flocked back to vote. It is estimated at least 140,000 Germans returned to vote, special trains carrying the majority of them there.

Allied troops guarded the territory during the balloting.

HARDING UPHOLDS BOUNDARY DECISION

Washington, D. C.—The decision of Chief Justice White in the Panama-Costa Rica boundary dispute "must be the unalterable position" of the United States government, President Harding declared in reply to an appeal from President Porras of Panama.

He expressed regret that Panama should feel wounded by the decision, described by Porras as "painful and humiliating."

The exchange between the two executives was in the nature of an ad interim discussion while the state department awaited Panama's reply to its note. Costa Rica has accepted the White award.

President Porras recalled the expressions of friendship for Panama given by Mr. Harding last November during his visit there and voiced a hope that the Panamanian people might not be disappointed in their faith in the new administration. To this, President Harding renewed his avowals of cordiality, but added that the exercise of friendly relations always must be tempered by justice.

TWO DIE IN BIG EXPLOSION

Spontaneous Combustion Caused Destruction of Armour Elevator.

Chicago.—Two persons are known to be dead and four others are missing in the grain dust explosion which rocked South Chicago and wrecked one of the world's largest grain elevators.

The elevator, which consisted of steel and concrete towers, was located in the southern outskirts of the city on the banks of the Calumet river. It was built at a cost of more than \$10,000,000 and was operated by the Armour Grain company.

J. C. McDonnell, chief of the fire prevention bureau, said his investigation had convinced him the explosion was due to spontaneous combustion.

Engineers said damage to the elevator would approximate \$1,500,000. The value of the grain destroyed was estimated at \$1,900,000.

Fred Agatz Named Assistant Director.

Olympia, Wash.—Dan Scott, director of conservation and development, announced the appointment of Fred W. Agatz of Olympia as assistant director. Mr. Agatz has been employed in the state land commission's office. State Auditor Clausen was appointed as supervisor of municipal examinations by Director of Taxation Farnsworth. Mr. Clausen will continue to serve as state auditor while holding the position of supervisor of municipal examinations.

856 Oregon Men in Ranks Wounded

Salem, Or.—A total of 856 Oregon men, who served in the ranks during the recent war, were wounded according to statistics compiled by Adjutant General White. This list does not include wounded officers nor enlisted men serving in the marine corps or the navy, which is expected to bring the total to approximately 1000.

Special Selling of Silk and Voile Blouses

It has been years since an opportunity to obtain good blouses in the prevailing stylish pattern we offer, and only the buying power of prompt cash enables us to sell at these low prices.

Men who can't manage without a wife will find that they don't manage with one.

Nothing goes without saying with a woman.

Some people eat their bread upon the waters and expect it to come back buttered.

A lobby of Minnesota farmers is going to Washington to tell congress what they want. The plutocrats are determined to rule this country of ours.

It seems funny that folks who think this world is a terrible place to live in have a decided antipathy towards leaving it.

Satan never gets a chance for a confidential conversation with the busy man.

After listening to all the learned dissertations upon the dangers of osenlating prepared by prominent scientists one comes to the conclusion that only a bold man will hereafter dare to kiss a girl. But, then, only the brave deserve the kisses of the fair.

The "commissary" form of government—with the "full dinner pail" slogan—would, no doubt, prove popular.

Women are making a mistake in the new fangled kinds of clothes they wear. They leave little to arouse man's curiosity.

HIGH SCHOOL NOTES

Mrs. Kelly, of the Oregon Hygiene association, lectured on heredity at the high school Thursday afternoon, March 17. She presented statistics showing the cost to the state of caring for the mentally defective and pointed out the need of intelligent legislation for controlling their increase. Conferences with students interested in the subject of heredity were held during the afternoon. Mrs. Kelly talked to the girls after school. Mr. Sanders, who travels with Mrs. Kelly and lectures to the boys, was unable to come on account of illness.

A two-course luncheon was served Saturday by the domestic science girls to those attending the institute. The menu consisted of meat loaf, brown gravy, sweet potatoes, cabbage salad, bread and butter, cake and marshmallows pudding and cake. Daffodils decorated the table to carry out the color scheme of yellow and white.

The physics class visited the City ment market last Friday to investigate artificial cooling. Wm. Bartels acted as guide, taking the students through each refrigerator and explaining in full the operation of the plant.

The high school has started a drive for securing subscriptions for The Country Gentleman. The drive is to last one week, commencing last Saturday and ending today. The high school has been divided into two teams, one team composed of the girls and the other of boys. Both teams are fighting hard for the lead. The losing team is to give the winners an entertainment of some kind. The high school gets half of all money taken in, the money to be turned over to the student body treasury.

The first and second year manual training classes held an exhibit of this year's work in the drawing room of the old high school building Saturday. In the exhibit were bookshelves, piano benches, writing desks, cedar chests, some of which had the added feature of a drawer; footstools of various designs, tool boxes, tabourets, stands, library tables of different designs and shaving stands. The exhibit showed the progress made by the classes and also showed the opportunities offered by the industrial course of the school.

An exhibit consisting of gingham dresses, underwear and middie made by the first year sewing class and silk dresses, georgette crepe and crepe de chine blouses, tailored and plaid wool skirts made by the advanced sewing class, was held Saturday in the domestic art room. The exhibit was attractive not only from the standpoint of arrangement but also for design, color harmony and workmanship.

Two of the most homelike hotels in Portland, located in the heart of the shopping and theater district. All Oregon Electric trains stop at the SEWARD HOTEL, the House of Cheer. Excellent dining room in connection.

The HOTEL CORNELIUS, the House of Welcome, is only two short blocks from the Seward.

Our brown busses meet all trains. Rates \$1.50 and up. W. C. CULBERTSON, Prop.

A young, spoony couple sometimes looks foolish, but this would be a mighty miserable world to live in without love.

An optimist is a man of 60 who thinks his 20-year-old wife married him for love.
