FOREST PROTECTION WEEK MAY 21-28 1921

By the President of the United States of America.

A PROCLAMATION

Whereas, the destruction by forest fires in the United States involves an annual loss of approximately \$20,000,000 and the devastation of approximately 12,500,000 acres of timber land and other natural resources, and

Whereas, the present deplorably large area of non-productive land is being greatly increased by 33,000 or more forest fires which occur each year, and

Whereas, the menace of a future timber shortage threatens to become a present economic fact seriously affecting our social and industrial welfare, and

Whereas, a large percentage of the forest fires causing the annual waste of natural resources may be prevented by increasing care and vigilance on the part of citizens:

Therefore, I, Warren G. Harding, President of the United States, do urge upon the governors of the various states to designate and set apart the week of May 22-28, 1921, as Forest Protection Week, and to request all citizens of their states to plan for that week such educational and instructive exercises as shall bring before the people the serious and unhappy effects of the present unnecessary waste by forest fires, and the need of their individual and collective efforts in conserving the natural resources of America.

In witness whereof, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

Done in the District of Columbia, this 7th day of April, 1921.

(Seal) WARREN G. HARDING.

SMITH CLEARED OF BLAME FOR SHOOTING JOHANSEN

Justifiable homicide was the verdict of the coroner's jury that held an inquest over the remains of Alfred Johansen, west Lane mountain bee rancher who was shot and killed by

Mazeppa L. Smith, of Glenada, Monday morning.

Sheriff Stickels says the evidence showed that during a quarrel over honey jars Johansen got his rifle and began to shoot at Carl Allen, half brother of Smith and that Smith, in order to defend himself began shooting at Johansen, three shots taking effect, two of which struck in vital spots. The remains of Johansen were buried near his cabin where the shooting occurred.

Afraid to Face Your Banker?

Slowly the old man entered the bank and stood for a moment nervously tapping the rail by the vice-president's desk.

For a week he had dreaded this interview. Night after night he had worked over his financial statement, but now as he faced the ordeal he knew that the paper he held in his hand was a sorry mess of figures that he could not prove.

It seemed to him that bankers wanted to know a lot of fussy details that no man could be expected to answer off hand and he hated to go through all that—it seemed like a million questions to him.

The trouble with this man, and so many others in the same boat with him, is that he has never had his eyes opened to the need of getting more figure facts about his business. He thinks the cost of making daily records would eat up all his profits

and he needs to be shown that on the contrary he would make more money if he had them.

Most successful men in business today have learned that clear, accurate, detailed records of all the departments and operations of their business are the best assurance of success.

Machine methods of figuring and mechanical aids in bookkeeping and record keeping have simplified these operations so that it is no longer necessary to carry a heavy bookkeeping expense to get the necessary facts.

With a Burroughs figuring machine an inexperienced clerk can work out automatically all the figure problems of business transactions as: adding sales and charge slips, footing all sorts of figure columns, proving postings, taking trial balances, checking invoices, distributing sales by clerks or departments, totaling weights and quantities and so on.

Telephone the nearest Burroughs office and ask them to show you the type of machine you need and how to get the facts about your business.
