ASSESSOR GIVES FIGURES ON LANE COUNTY CROPS

The total acreage of different crops in Lane county has been compiled by Herbert E. Walker, county assessor, from figures obtained from his several field deputies. While the figures are not absolutely accurate they are as complete as it is possible to make them, says Mr. Walker. Many farmers for various reasons fail to give the assessors the complete figures on their crops.

According to the assessor's summary the total number of acres in farms in Lane county is 287,885.

The total number of acres of winter wheat is 3634 and of spring wheat, 14,823; oats 22,335; barley 1330, rye 318, corn 4201, clover 385, alfalfa 78, wild or marsh hay 2362, other hay crops 18,129, potatoes 1062, other root crops 505, field peas 4, field beans 96; hops, old acreage 635, new acreage 32; other crops 549.

The number of acres of apple trees in bearing is 1876, according to the assessor's figures, and the number of apple trees not bearing is 700. The number of acres of cherry trees in bearing is 413, and not bearing is 128; peach trees in bearing 116, not bearing 28; pear trees in bearing 236, not bearing 76; prune trees in bearing 858, not bearing 550; walnut trees in bearing 153, not bearing 29; loganberries 180, blackberries and raspberries 120, strawberries 116; other fruits and nuts in bearing 48, not bearing 17.

License Law Violated.

Eugene Register: State and county agents are waging a war on violators of the traffic and automobile license laws in this county. The records of the local justice court show that a number of arrests have been made during the past few days.

H. B. Shanno, a lumberman, paid a fine of \$50 for failure to have a license for a truck he has been using. The officers say that he was using a license plate that belonged on his touring car. Walter Scott, of Springfield, and Harold Mauerud, of Eugene, were each fined \$10 for driving a car without an operator's license. John C. Curran, of Cottage Grove, paid \$10 for speeding on Pacific highway.

C. N. Wiles, representing the license department of the office of the secretary of state, is prosecuting the cases and he says that a number of additional arrests probably will be made in this locality.

The ax cut through the obstruction at which it had been aimed and continued on its way until coming in contact with George's right foot. It cut through the shoe and through the flesh to the bone. The wound is on the inside and top of the foot. Mr. Boyd will be laid up for several weeks but is able to get around on crutches.

A formal order declaring the whole of Lane county to be a weed control district was made by the county court Saturday, following the suggestion of the agricultural council of Lane county Pomona grange. The district is created for the purpose of destroying the Canadian thistles and preventing their seeding and spreading, says the order. The county fruit inspector is ordered to enforce the provisions of the law.

LANE COUNTY'S DEBT IS KEPT WITHIN LIMIT OF LAW

Lane county's debt has been kept within the limit of the law at all times and all its warrants are valid, according to Clyde N. Johnston, district attorney, who, at the request of the county court, made an investigation of the county's finances. His report, submitted to the court, follows:

To the Honorable County Court of Lane County: In compliance with your request for an opinion relative to the county's financial condition and in answer to the following question submitted to me, I submit this opinion:

"Is Lane county in debt in excess of the limit imposed upon it by the constitution and laws of Oregon?"

I have been furnished detailed statements from the treasurer's office, assessor's office and sheriff's office, showing the total tax levy for the years 1918, 1919 and 1920, the total amount of warrants drawn and the total amount of funds received by the county during these years.

The supreme court has said that: "Although the record does not reveal how much of the levy for general county purposes has actually been col-

lected, nevertheless, after the levy is made the payment of the taxes is regarded as a legal certainty."

Based upon this, the county court has the power to budget and expend funds in anticipation of the collection of the entire levy. In addition thereto the county court is entitled to take into consideration the income from fees and other sources aside from the taxes of the county, and unless the total number of warrants drawn in any one year should exceed by more than \$5000 the total annual levy, plus the income from other sources, the warrants would be valid. From a careful checking, as above described, I find that during the years above mentioned Lane county has not exceeded the limit against indebtedness imposed upon it by law.

For the purpose of determining this question I have examined the records for the years 1918, 1919 and 1920 and went no further, because prior thereto Lane county was on a cash basis and, hence, there could be no question about the validity of any warrants issued. Respectfully submitted,

CLYDE N. JOHNSTON,
District Attorney.
