I Broke My Glasses

and found how inconvenient it was to be unable to use my eyes for the balance of the day.

I made a resolve then and there that I would make it possible to replace a broken lens however complicated its formula the same day the order was left with me.

I have succeeded even better than I hoped, for now I am able to replace any broken lens, even when you do not give us the prescription.

Is that worth anything to you? If so, remember this advertisement the next time you break a lens.

This is only one example of the thoroughness and modernness of my entire business.

NOTICE!

We can save you money on dairy feeds, hog feeds, poultry feeds, etc. We manufacture our own brands of feed right here in your home town; and every time you patronize a home industry, you help build up that industry. Like a chamber of commerce, a local industry in any community depends upon the support of the people of the community. By trading here you help us and help yourself also.

THE YOUNG MAN'S BANK

This bank, since its organization, has always bid for the business of the young man. Of late years, we have made strong campaigns to get our young people to start savings accounts. This we have found comparatively easy. We have written many new names in our depositors' ledgers. Don't you want to add yours to the list?

Bank of Cottage Grove

Crown Flour

Purity—Quality—Uniformity

These three words constitute a pledge we make to those who use CROWN FLOUR. They are to this company all that "his word of honor" is to a man of character.

CROWN FLOUR is absolutely pure and wholesome because it is made under excellent sanitary conditions and because no artificial bleaching process is used in order to whiten the flour.

People generally are beginning to realize that bleached flour is inferior to the natural product and its use is now viewed with suspicion.

CROWN FLOUR is uniform in quality and specially made to meet the requirements of the family trade. It is as near right as best wheat, modern machinery and expert milling knowledge can make it. Housewives take unusual pride in their baking skill, and they know that results come from using flour which is always the same. CROWN FLOUR is made to meet the demands of the most exacting housewife. Women who know the value of delicate cookery, who value a flour for its purity, wholesomeness and natural flavor will find that their home baking will be greatly improved by using CROWN FLOUR. Try it and you will find it a source of pleasure to every member of the household, as well as being conducive to good health.

THE QUALITY OF CROWN FLOUR WILL NEVER BE LOWERED. WE WILL MAKE IT BETTER IF POSSIBLE

Crown Mills
