A person who has written love letters for several years should be proficient in the use of synonyms, for there is little to a love letter except saying the same thing over and over again in a different way.

### City Council

Aug. 10.—Council met in adjourned session. All councilmen present.

City engineer reported repair job on west Main ready for rock.

Water superintendent reported water pipe over Silk creek was about to give way and advised that it be put under ground. It was so ordered.

Water superintendent reported low stage of water at intake in Frayther creek; that connection with Layng creek was ready but would not be made except as last resort and that there would be enough water if irrigation was cut off. In response to inquiry superintendent said reduction of evening irrigation period for two hours would help. Water committee reported in favor of restricting irrigation to the hours of 6 to 8 in the evening, leaving morning irrigation period the same.

Following discussion Kime, Durham and Mackin were appointed a committee to confer with fire department.

Charter amendments prepared by the city attorney were submitted as follows:

For refunding \$15,000 water bond, issued in 1901 and coming due October 1, 1921.

For raising maximum fine for violation of certain ordinances from \$100 to \$250.

For empowering the council to issue bonds not to exceed \$50,000 to run 25 years and to draw not to exceed 1 per cent interest for the purpose of acquiring or building municipal lighting and electric system.

The first two amendments were accepted without division. The amendment for the electric light system was submitted with the limit of bonds, term and interest blank, and on motion to limit them to \$50,000, fixing term at 25 years and interest at 6 per cent, roll was called, Durham, Short and Venth voting yes; Kime, Allison and Mackin voting no. The mayor voted yes and the motion was declared carried. The petitions will be circulated and if signed by requisite number the election probably will be held about September 1.

On motion S. P. company was granted permission to irrigate its parking at depot between hours of 4 and 5 p. m. It was so requested because employ who attends to the parking goes off duty at 5 p. m. The vote on the motion was: Yes, Allison, Mackin, Short; no, Durham, Kime, Venth. The mayor voted yes. Councilman Kime explained that he voted no because he was in favor of allowing irrigation one hour a day without restriction as to the hour.

Finance committee made report on water collection without recommendation and the matter was laid over.

Motion carried that city donate 8 or 10 planks to repair bridge over Coast fork near Huff place.

Council adjourned to August 15, at 8 p. m.

H. A. GALLOWAY, Recorder.

If you can't be a lender you can at least boost the fellow who is. No one can lead without a lot of moral support behind him.

It's a good thing some people don't walk in their sleep or they'd get very little rest.

There are some places that even money cannot get a man into—one of them being the poor house.

The child or person who is too forward doesn't get ahead very rapidly in the estimation of those about him.

Men who wear dress suits cannot with consistency make fun of the hobbie skirt.

It's unwise to be lazy, and foolish to kill yourself working—so just go ahead and do as you please.

You can't be absolutely certain that a woman is broad-minded just because she wears a hat three feet in diameter.

Even the railroad companies are helping to advertise the temperance movement. All along the right of ways are signs reading something like this: "Podunkville one mile—water."
