# Food for Thought

The subject paramount in the minds of the consuming public today is "Price Reductions." We believe that as retailers it is our duty to keep the people informed as to the actual prices that prevail today on staple merchandise as compared to the prices of a year ago. It is a very obvious fact that people not accustomed to dealing in figures on a percentage basis will overlook the fact that a 50% reduction from the selling price of an article that had increased 100% would bring it down to the original selling price. For example: A pair of overalls that sold for \$1.00 in 1914 had to increase 100% to be sold for \$2.00, while a decrease of only 50% from the \$2.00 would bring the price back to the original \$1.00.

It may be of interest also to know that the average increase of the manufacturers' prices from July, 1912, to May, 1920, was 172%, while the retail prices advanced only 105%—the manufacturers' prices soaring 67% higher than the retail figures. We publish for your consideration a table of comparative prices showing the peak prices of 1920 as compared to present quotations on staple dry goods, clothing and furnishings:

Article	August 1920	August 1921	Article	August 1920	August 1921
Hope muslin	\$ .40	\$ .15	54-inch wool velour	6.50	3.75
Fruit of the Loom	.50	.19	36-inch sateens	.75	.45
9-4 Piquet sheeting	1.50	.70	36-inch wool serge	1.50	.85
81x90 Piquet sheets	3.00	1.85	36-inch silk messaline	3.50	1.95
42x36 pillow cases	.80	.45	40-inch crepe de chine	3.50	1.95
Daisy outing	.60	.25	"Burson" cotton hose	.75	.40
Apron check gingham	.29	.15	Ladies' silk hose	3.00	1.50
Red Seal gingham	.50	.25	Ladies' kid gloves	5.50	3.75
Percales	.40	.20	Ladies' black kid shoes	10.00	6.50
Minerva yarns	.75	.45	Men's cotton union suits	2.50	1.50
32-inch romper cloth	.50	.25	Can't Bust 'Em overalls	3.25	1.75
18x36 huck towels	.35	.20	Men's all-wool serge suit	50.00	35.00
Oil cloth	.65	.45	Packard dress shoes	15.00	10.00
36-inch cretonnes	.95	.60	Men's dress shirts	2.50	1.50
48-inch broadcloth	5.50	3.75			

While the above list was taken at random from our stock and is not complete it reflects the trend of reductions that prevail throughout the store. From all the reliable information at hand, we reason that the "crest" of price reductions has past and that the people would be exercising sound judgment to buy their requirements.

Boiled Iceing—One cup of granulated sugar, one-third cup boiling water, the white of an egg and one saltspoon of cream of tartar. Boil the sugar and water without stirring until the syrup taken up on a skewer will "thread" or "rope." When it is nearly at that point beat the egg stiff, add the cream of tartar and pour the boiling syrup over the egg in a fine stream, beating well. When it thickens and is perfectly smooth, pour it over the cake. It hardens quickly and should be put on the cake before it stiffens enough to drop.
