## OAKLAND HAS BRAND NEW VARIETY OF SNAKE IN THE GRASS

Better page the prohibition squad. Listen to this from the Oakland Tribune.

Fred Weigel, of this city, relates an unusual experience which he recently had with a whip snake. While walking along the railroad right-of-way north of the station he noticed a yellowish snake with brown markings lying in the grass in the shape of a horse shoe. It was about five feet long and an inch and a half in diameter. As it did not move at his approach he was about to pass it when it switched its body and tail around and struck him a powerful blow on the calf of the leg. The snake immediately made its escape and got into some high grass before it could be overtaken. The injury to Mr. Weigel's leg proved quite painful and it was several days before he could go about his work as usual. It has since been learned that these snakes are rather common in New Mexico and other southwestern states where they have been known to break a child's leg by the force of a blow struck with the tail. It is said that they could easily kill a dog in this manner. As this is the only specimen of this kind of snake ever seen in this section it is likely that it was transported here in some kind of a railroad shipment and crawled out while the train was standing in the yards here.

## PHEASANT SEASON BEGINS 15 DAYS LATE THIS YEAR

The open season for Chinese pheasants begins on October 15 and closes on October 31 in that portion of the state lying west of the summit of the Cascade mountains, except in Josephine, Coos and Curry counties, where there will be no open season on these birds.

The bag limit on these birds is five in any one day and 10 in any consecutive seven days and not more than three females may be killed in any consecutive seven days.

The same regulations govern the hunting of native pheasants in western Oregon with the exception that the season is not closed in Josephine, Coos and Curry counties.

It is reported that these game birds are abundant this year and that there will be plenty for all, if hunters await the opening day of the season before shooting them.

## LESLIE TOOZE FUNERAL AT EUGENE SUNDAY

Dr. D. H. Leech, pastor of the First Methodist church of Eugene, will conduct the services and Dr. F. L. Campbell, president and Colin V. Lyman, dean of the college of literature of science and arts at the university, will speak.

The remains will be interred in a lot recently acquired by the family in the L. O. O. F. cemetery overlooking the campus of the university.

## CHURCHES IN CAPITAL OF NATION ARE ADVERTISERS

Churches in the city of Washington club together and take page advertisements in the Saturday evening newspapers calling attention to the next day's attractions—which include electric fans and other cooling apparatus. One advertisement was embellished with the following page-wide sentiment autographed by Henry C. Wallace, secretary of agriculture:

"Why is it that so many parents send their children to Sabbath school but do not themselves go to church? If the one is good for the children, surely the other is good for the grown-ups. The fact is that the church is the great stabilizing influence in America today, and as such should be attended and supported by both saints and sinners."

**Steals From the Blind.**  
A contribution box in the Hotel Bartell was stolen a few days ago and the thief has not been detected. The money in the box was for the benefit of a society for the blind located in New York state and amounted to about \$5 or 6. The box had been in the hotel lobby for a number of years and never before had been molested.

**Commission Sues Mills.**  
The state industrial accident commission has started suit in circuit court to recover money alleged due on payrolls of three Lane county lumber firms, under the state workmen's compensation act.

Earl and Arthur Ishmael and Jess Parks, partners, are sued for \$38.18. The Point Terrace Mill and Lumber company owes the commission \$155.98, while the John-Jones Coal company owes \$407.94, according to complaints filed.

When ruffling is to be finished with a pilot edge, leave the material in double width and hemstitch through the middle so that only half as much hemstitching is required. Colored hemstitching is very effective on figured material.
