When a Winchester Speaks It Means Business

There he comes—the big grizzly—snarling, only a few feet away. It takes a sure-fire, sure-to-work, accurate rifle and a powerful, hard-hitting cartridge to bring him down.

A Winchester rifle and one Winchester cartridge can stop the charge of the world's largest carnivorous animal. Winchester rifles and ammunition have been the choice of Roosevelt and many other famous hunters of big game for many years. Every Winchester rifle passes exacting tests for strength, smooth action and accuracy. Winchester cartridges are tested for power, velocity and penetration.

For your next hunting trip—whether you go after big game or small—take a Winchester rifle and Winchester cartridges—world standard for over fifty years.

CRANBERRY INDUSTRY BECOMING IMPORTANT

The cranberry is the only fruit grown in the United States whose course of travel is from east to west. Realizing that this state is a fruit producing state, men of broad vision in the district at the mouth of the Columbia river entered the cranberry game and have developed it to such an extent that at the present time it is supplying a great many of the cranberries used on the Pacific coast, but there are still berries shipped in from the east.

The district amounts to a million dollars. Those members of the Oregon State Editorial association who were fortunate enough to visit the cranberry bogs in Clatsop county last year were astounded at the magnitude of the industry. The cranberry industry on the Pacific coast, while new, already occupies a firm place among the horticultural industries of the northwest. Berries of very fine quality are grown in Oregon and Washington in the district at the mouth of the Columbia river. Here is a great frost-free zone, with abundant rainfall, having a climate admirably adapted to the growing of this berry.

Ford

THE UNIVERSAL CAR

Genuine Common Sense

Many Ford owners can afford to own and operate any car they may choose, but they prefer a Ford "because it is a Ford," for "because it is a Ford" means dependability, ease of operation, efficiency—and it means sure, quick transportation.

The Ford Sedan, a closed car of distinction, beauty and convenience, is the ideal all year 'round car, for pleasure or business—for the farm, town or city. It gives you all that any car can give at a much lower cost for operation and maintenance.

More Common Sense

Keep the boy on the farm and the mortgage off by using the Fordson Tractor. The boy enjoys handling an iron steed and it will make your own work more enjoyable. Get a Fordson and watch your bank account go "chug chug."
