The most precious thing in the world

Think what this world would be without confidence that the sun would rise tomorrow!

Without confidence in the order of things, in our fellow men, in our institutions, chaos would reign in the world. There would be no security, no progress, no happiness. Confidence is essential to all that is worth while.

HOME TOWN PAPER WEEK

Rarely does the average newspaper boost its own business, preferring to give quantities of space in boosting the affairs of others.

Somebody suggested that it was time for the newspapers of the country to adopt a week in which their own business should be given precedence, and The Sentinel thoroughly endorses the idea.

The date set is the second week in November, from the 7th to the 12th, including that great world event, Armistice Day.

The official title for the week will be "Subscribe for Your Home Town Paper Week."

Thousands of papers will join in this event and our readers will hear more about it as time goes on.

Alleged substitutes are distinct foods, if foods at all. There is no substitute whatsoever for that dainty dairy necessity-butter; and there is no butter that is a substitute for Red Rose Brand.
