

## ELECTRIC RATE HEARING IS ON HERE TODAY

Inquiry to Be Held Before Member of Public Service Commission Beginning at 10 a. m.

The electric rate proposition in Cottage Grove will be the subject of a hearing to begin this morning at 10 a. m. in the old commercial club rooms before a member of the public service commission. The city will be represented by its attorney, J. E. Young, assisted by E. O. Potter, of Eugene, and H. J. Shinn will conduct the case for the electric company.

In view of the fact that at the recent election a large majority voted to bond the city for a municipal light and power plant, and that the same proposition has been the subject of a previous hearing, interest is expected to be intense and a large attendance is anticipated.

## C. G. HIGH OPENS FOOTBALL SEASON AT ROSEBURG TODAY

The Cottage Grove football team goes to Roseburg today to play the first game of the season. A large delegation of students will accompany them, and high school work will begin this morning at 8 and close at 11:30 in order that students may attend the game.

The team has some excellent material this season and though Coach Hargreaves has had little time to whip the squad into shape, it is expected that they will give a good account of themselves. Enthusiasm was rampant at the rally on the campus Friday night of last week and if the boys show as much pep in their game as they did at the rally they will walk away with the valley championship.

### No Loans to Students Who Smoke.

Student loans at the University of Oregon may in the future be limited to non-smokers, according to Dean John Straub, trustee of the fund, which was built up by gifts. "The amount of money spent by an average smoker during a school year is \$50 or more," says Dean Straub, "and it is felt that if a student really needs help he should eliminate this item of expense."

Charles Park, president of the state board of horticulture has announced that it will be necessary to quarantine Malheur county on account of weevil found in alfalfa in that county, and that action will be taken at once to prevent the shipping of alfalfa into other counties. A proclamation in line with Mr. Park's suggestion probably will be issued by Governor Olcott.

The Bear Creek orchard, on the outskirts of Medford, last week received the highest price ever paid in America for a carload of pears, sold in New York and bringing a gross of \$4249. This car contained 1000 half-boxes of D'Anjou pears which sold for an average of \$4.25. This means that these pears were sold at wholesale averaging 10 cents apiece for the entire carload.

Constitutionality of the Oregon bonus law will be passed upon by the supreme court of Oregon in a friendly suit which is to be instituted in the lower courts immediately. This action was decided upon by the state bonus commission after it had been found that sale of the initial bonds waited upon such action in view of the recent New York decision against the bond issue in that state.

## HOME TOWN PAPER WEEK

Rarely does the average newspaper boost its own business, preferring to give quantities of space in boosting the affairs of others.

Somebody suggested that it was time for the newspapers of the country to adopt a week in which their own business should be given precedence, and The Sentinel thoroughly endorses the idea.

The date set is the second week in November, from the 7th to the 12th, including that great world event, Armistice Day.

The official title for the week will be "Subscribe for Your Home Town Paper Week."

Thousands of papers will join in this event and our readers will hear more about it as time goes on.
