Art class shows color, design in wall-hangings for home decor

by Steph Daly

Miss Wilma Crabtree's seventh period sophomore EE art class has begun a project having to do with weaving and wall hangings.

"The idea is to incorporate several art projects for an interior design," commented Miss Crabtree, art instructor.

In starting the project, Miss Crabtree instructed each member of her class to pick out a section of a room in his or her house and sketch a before and after plan of what they intended.

The project will be con-

cerned with a certain portion of a room and the use of wall hangings, and proper color scheme in that room.

"I think the project is really, really exciting, commented Vonda Mahaffey. "I am embroidering a burlap wall hanging which is 72 inches high and 67 inches wide; it is an abstract of three people, and the colors are really wild and bright."

"I think it is fun," said Larry Wheeler, "but there sure is a lot of work involved in getting the loom prepared to work." Larry is making a wall hanging, with a forest scene design, utilizing several different stitches with the loom.

Home economists learn basic skills

by Steph Daly

"Thanksgiving Luncheon," was the title of the Foods class brunch given on November 15, under the instruction of Mrs. Kay Willardson, Home Economics teacher. Other dinners are also now being planned.

The Thanksgiving luncheon was the second full meal prepared by the class, with the first one being a Halloween party.

Ham with peach trimming, sweet potatoes, fruit and marshmallow jello, hot rolls, and French onion peas were served in a colorful array, along with fruit punch, combined with five different fruit juices. Colored ice cubes and orange decorated cupcakes added an intriguing touch to the atmosphere.

Foods is a half-year course in which the student learns the basics of cooking, meal and menu planning, party planning, table setting, and also the study of nutrition, in order to provide long-lasting health by eating the right types of foods.

"The most important lesson learned in the course could quite possibly be the organization of time," commented Mrs. Willardson. "The students must learn to be able to prepare their meal, have the table set, eat the meal, and have their unit back to order within the short time of one period.

Besides learning the main tips in cooking, the students also decorate the room, and arrange centerpieces, and placecards, all necessities in dinner serving and fundamentals to the good hostess.

Both the Thanksgiving and Halloween events have been in-

formal, but plans are being made for a formal Christmas dinner of which students will send formal invitations, providing a formal atmosphere.

On the agenda for the next nine weeks in the Foods classes will be: the Christmas dinner, a sugar cookery, and adventure with the cooking of foreign foods, and the study of protein,

meats, yeast and entertaining.

Linda Klein chosen representative to KISN for intercom reporting

According to John Stuckey, student adviser, Linda Klein has been chosen as the 1967-68 KISN intercom reporter.

Linda was chosen by the usual procedure of writing in and stat-

ing her school activities and qualifications.

The person whom KISN feels is most interested and best qualified for the job is chosen to represent his or her high school.

Linda's job is calling KISN or mailing in a list of the upcoming activities, the results, and the upcoming events.

Activities going on at all the Portland high schools can be learned by tuning in to the 910 on your radio dial, any evening of the week, from 7:30 to 8 p.m.
