

HOW TO USE THE COUPON CALENDAR

We at For What Is Worth Records are in business to save you money on music and the purpose of this coupon calendar is to let you plan the best times to do that. The terms of the coupon are simple: When used on this appropriate date, each coupon is worth a \$1 off the rack price of any album or tape in the featured artist's catalog. Below, you will find the catalogs of this month's featured artists, along with the price you pay with the coupon. Coupons are good at all five For What It's Worth Record stores. Limit: one coupon per album; there is no limit to the number of albums which may be purchased with a coupon, provided each coupon is used on the correct date. Additional calendars are available at each For What It's Worth location, upon request. Rain checks guaranteeing the discount price will be given for any featured album not in stock the day it is featured and will be honored for 30 days. This coupon calendar offers you a guaranteed discount at For What It's Worth Records, and if all coupons are used, the face value of this calendar is \$11.00.

And where it's going.

When times are troubled,  
Why can't I be like the sea,  
Going calmly to and fro.

-- Marlene Clark
