Outward Bound

The Northwest Outward Bound School is currently enrolling students in its river and mountaineering adventure courses to be conducted this summer in Oregon, Washington and Idaho. Included are 24-day mountaineering courses and 8-day river or mountaineering courses. Northwest Outward Bound School is a non-profit educational organization, and is one of more than 30 Outward Bound Schools around the world that offer adventure-based educational programs.

All of the courses begin with instruction in the basic skills required to cope safely and effectively with the river or mountain environment, including campcraft, safety and first aid, and the art of traveling through the wilderness with minimum

impact on the surroundings. Participants then move on to progressively more difficult challenges. Depending on the type of course, these include river-running, rock climbing, rappelling, mountain climbing and "solo" a time alone, camped, with minimal but adequate food, gear and shelter.

Each course group includes 9 participants and two instructors. Strangers when they meet, the participants soon discover that living, working and cooperating as a close-knit group is one of the most challenging and rewarding experiences of the course. Contact Northwest Outward Bound School, 0110 S.W. Bancroft, Portland, 97201 or phone 243-1993.
