Crafts for sale

Handmade items are on sale today during this year's Crafts Fair, just in time for Christmas.

Crocheted items, flower arrangements, doll clothes, jewelry, hats, quilts, macrame, and hand sewn items are among the 16 exhibits of wares to be sold.

Students and community members will sell their "wares" in the Community Center Mall until 2 p.m. today.

Math class

theories applicable in the normal world. It is for this reason that students taking "Math for

Pattern recognition, the study of sets and a variety of other operations, are math Liberal Arts Majors," M-182, have found the new class to be useful.

"Pattern recognition seems to be a common denominator, that I feel will help me in future

math courses," said student, Sandy Carter.

Left out of the winter term schedule by mistake, Math for Liberal Arts Majors is a three term class, though winter term is open for new students. It will meet at 11 a.m. Monday, Wednesday and Friday.

"Last year was the first year for a course of this kind at

Clackamas Community College," said the instructor, Gerry Alexander. "I feel that it has been successful. Once the students understood and accepted the new way of looking at math, they did well."

"This is not a skills course," he said. "It is a discovery course and there are some interesting things to discover about math."

According to student Jill Wright, learning patterns and then basing mathematical assumptions on them caused her to "achieve more in difficult math problems."

"You use more of your imagination, than if you were to use the basic theory," she said.

THE FACTS:

1 HUNDREDS OF THOUSANDS OF WOMEN USE ENCORE OVAL™.

Encare Oval™ was introduced to American doctors in November 1977. Almost immediately, it attracted widespread physician and patient attention.

Today, Encare Oval is being used by hundreds of thousands of women, and users surveyed report overwhelming satisfaction. Women using Encare Oval say they find it an answer to their problems with the pill, IUD's, diaphragms, and aerosol foams.

2 EFFECTIVENESS ESTABLISHED IN CLINICAL TESTS.

Encare Oval™ was subjected to one of the most rigorous tests ever conducted for a vaginal contraceptive. Results were excellent—showing that Encare Oval provides consistent and extremely high sperm-killing protection. This recent U.S. report supports earlier studies in European laboratories and clinics.

Each Encare Oval insert contains a precise, premeasured dose of the potent, sperm-killing agent nonoxynol 9. Once properly inserted, Encare Oval melts and gently effervesces, dispersing the sperm-killing agent within the vagina.

The success of any contraceptive method depends on consistent and accurate use. Encare Oval™ is so convenient you won't be tempted to forget it. And so simple to insert, it's hard to make a mistake.

If pregnancy poses a special risk for you, your contraceptive method should be selected after consultation with your doctor.

3 NO HORMONAL SIDE EFFECTS.

Encare Oval™ is free of hormones, so it cannot create hormone-related health problems—like strokes and heart attacks—that have been linked to the pill. And, there is no hormonal disruption of your menstrual cycle.

Most people find Encare Oval completely satisfactory. In a limited number

of cases, however, burning or irritation has been experienced by either or both partners. If this occurs, use should be discontinued.

4 EASIER TO INSERT THAN A TAMPON.

The Encare Oval™ is smooth and small, so it inserts quickly and easily—without an applicator. There's none of the bother of aerosol foams and diaphragms. No device inside you. No pill to remember every day. Simply use as directed when you need protection.

You can buy Encare Oval whenever you need it...it's available without a prescription. And each Encare Oval is individually wrapped to fit discreetly into your pocket or purse.

5 BECAUSE ENCORE OVAL IS INSERTED IN ADVANCE, IT WON'T INTERRUPT LOVEMAKING.

Since there's no mess or bother, Encare Oval gives you a measure of freedom many contraceptives can't match.

The hormone-free Encare Oval. Safer for your system than the pill or IUD. Neater and simpler than traditional vaginal contraceptives. So effective and easy to use that hundreds of thousands have already found it—quite simply—the preferred contraceptive.

Lost: All sense of sanity, if found please return to, Mark Barnhill "The Print" Business Manager in trailer B.

Are you desiring fame and glory as an athlete, but just aren't good enough for the school team? Well, your time has come! Two sharp shooting guards are looking for three other reasonably talented

hoopsters to start an intramural team. If interested contact Mark or Mike at ext. 309 or 310.

Come on Mike, give me a break!
Sheila

John:
You are without a doubt, the most fantastic! let's do it again sometime.

You know who
