## History of

Valentine's Day, the holiday for lovers. When did this tradition start?

There are several theories to why Valentine's Day started. St. Valentine, an early Christian martyr, was regarded as a patron saint of lovers. It is believed that he was killed on February 14. Another man named Valentine was a Roman priest who was also thought to have been killed on February 14. The day seemingly has a connection to these two men.

Colleen,  
Happy Valentine's Day to my favorite older sister.
