Clackamas Community College April 20, 1988 Page 4/5

The two leaders of the trip; CCC instructors John Snively (R) and Bob Misley (L).

The Racetrack Playa where 200-600 lbs. rocks "move." Wet surfaces and winds up to 100 mph are the best explanation.

John Snively tells an interesting Geology story at Ubehebe Crater.

Photos by Bob Misley and John Snively

Rob MacDonald and Jay Patterson in front of an abandoned structure in Leadfield, a mining boom town that went bust.
