Security performs police duties

Did you know that campus security at Clackamas Community College is a substation of the Oregon City Police Department, and that they can, and sometimes do perform the same duties as the friendly officer who gives you tickets for speeding?

On the security force are four full-time officers who are really reserve policemen for Oregon City, and nine student security officers -- seven men and two women. Their main job is patrolling the parking lots to make sure nothing gets stolen.

"Our major 'crime' is traffic violations," said Stan Johnson, head of Campus Security. "People keep parking in the spaces reserved for the handicapped students.

When something is stolen, security follows the same procedure that the regular police department does, such as talking to the victim, to the suspects, if any, dusting for fingerprints and filling out crime reports.

"Parts of cars are the biggest things that get stolen the most. If some kid gets a flat tire, he goes out and steals someone's spare," said Johnson.

If a person is working on a car in the parking lot, security has to stop and check it out because "we don't know if he's working on his car or stealing a battery out of some body else's,'

If a student is caught siphoning gas out of another's car or something of that nature, he or she is not automatically charged with larceny and turned over to the Oregon City Police

Small offenses are kept within the college rather than outside sources and the thief has to make restitution to the victim. On larger matters, the offender is sent down to the police station in Oregon City.

Possession of less than an ounce of mari-Juana in Oregon is a misdemeanor, but still punishable by law, said Johnson. "As far as I'm concerned there's an invisible wall around the campus."

He expressed the hope that people smart enough to go to college would be smart enough to keep their pot out of sight and "go smoke it where nobody can see you."
