Vol. X, No. 13 Clackamas Community College Thursday, January 20, 1977

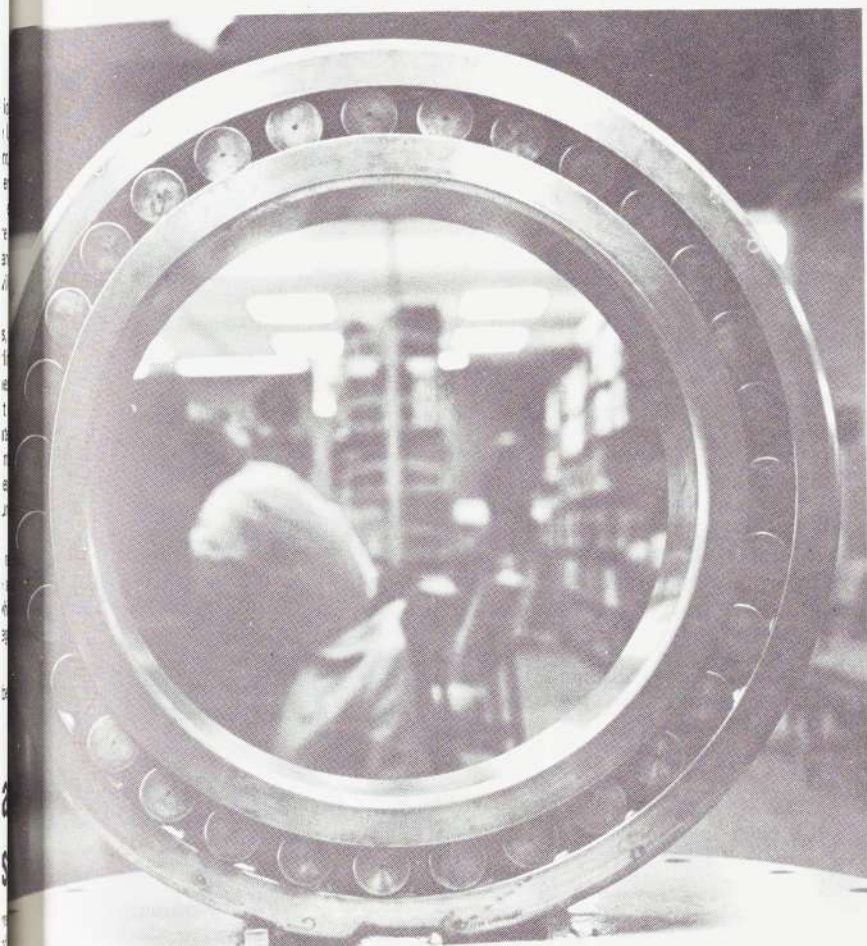

Photo by Jerry Wheeler

Double row self-aligning roller bearings consist of two rows of rollers, either spherical or cylindrical, revolving in a spherical outer race. Proper spacing of the rollers is obtained by means of a cage. They are capable of absorbing very high radial loads and moderate axial loads in both directions. The self-aligning feature of these bearings permits shaft deflection up to 1/2 degree without impairing the basic dynamic load rating. The bearings are currently on display near the entrance of the library.

Board pledges barrier funds

The Clackamas Community College Board of Education committed \$10,000 to improve handicapped students' accessibility to the buildings of Clairmont and Orchard Halls and the Community Center building during their meeting Wednesday, Jan. 12.

The board instructed Len Monroe, dean of students, to bring a definite plan of action with input from handicapped students as to what needs to be done on campus to relieve the accessibility problem.

At the same meeting, Larry Horyna, president of the National Community Education Association and director of the Northwest Center for Community Education at the University of Oregon presented the college with the National Community Education Association Allied Organization award. This honor is usually given to an individual but the awards committee decided

unanimously to give the award to the college, making Clackamas the first institution to receive the award.

The board chose a new negotiator during their executive session. The new negotiator is Mike Montgomery. Montgomery was deputy district attorney in Clackamas County for a number of years and is currently acting as an attorney for the Clackamas County Commission.

The board also adopted a resolution to set April 19 as the date for a special election for the board positions in the South Milwaukie and East County areas. These positions are currently held by board members Bonnie Jones and Roger Rook.

The next meeting of the board is scheduled for Monday, Jan. 31 at 6:30 p.m. The purpose of the meeting will be to review possible new programs for next year.

Local NORML club plans legislative 'lobbying'

The Clackamas Community College chapter of the National Organization for the Reform of Marijuana Laws (NORML) will meet with State Sen. Stephen Kafoury (D-Portland) in Salem, Jan. 21.

"When Sen. Kafoury called to arrange the meeting he seemed very optimistic," said Charlie Bennett, NORML's president at CCC. "There has been some excitement generated in the legislature for the bill."

Bennett was referring to HB-2574, which was submitted to the Oregon Legislative Assembly in 1975, under the sponsorship of (then) Rep. Stephen Kafoury (D-Portland) and Rep. Vera Katz (D-Portland).

"The legislature held hearings on the bill in 1975, but we've been unable to find even one person who was interviewed," Bennett said. "Kafoury thinks we have enough support in the legislature now to introduce the bill in a modified form, and this time we're going to be organized."

HB-2574 sought the decriminalization of marijuana possession in one-ounce quantities. Under ORS 167.207, possession is now a "violation punishable by a fine of not more than \$100."

The bill also sought to amend ORS 167.222, which states: "A person commits the offense of criminal drug promotion if he knowingly maintains, frequents, or remains at a place" where narcotics or dangerous drugs are used or kept.

Under HB-2574, the law would have read: "if he knowingly and intentionally maintains a place" where narcotics or dangerous drugs are used or kept.

"Part of the reason for the meeting Friday, is to determine what modification may be necessary for the bill's introduction to the 1977 legislature," Bennett said.

Twelve of NORML's 20 members at CCC will make the trip to Salem. "Financing, as always, will be out-of-pocket," Bennett said.
