Toddlers endure diaper changes in preparation for nap time Child day care offered on campus

by Jane C. Wilcox
Staff Writer

Finger paint pictures, corn syrup paintings and co-op coloring projects paper the walls of the Camp Fire Day Care Center as the youngest children endure diaper changes in preparation for nap time. In the next room, teeth are brushed, disputes are settled and a story is read. It is 12:30 p.m. at the Day Care Center.

Located in the Orchard Center, the Camp Fire Day Care Center accepts children six weeks to six years old. These children are broken into three groups according to age: the infant-toddler group for children six weeks to two and a half years old; the preschool group that consists of those children 2 and a half to four years old; and the older preschool group which includes four to six year olds.

Children in the infant-toddler group spend the day playing, learning social skills and practicing eating. Those in the two older groups work with pre-conceptual ideas such as learning colors and shapes.

"We work on things that are appropriate for their age groups. Like today, the four to six year olds played with Play Doh, had a

story time and listened to music," said Judy Kling, Director of the Camp Fire Day Care Center.

According to Kling, 55 children are enrolled at the Center. The cost for full time enrollment (five days a week, over seven hours a day) is \$410 for six weeks to two and one half years old and \$310 for children over two and a half years old and over.

The Center employs ten paid staff persons and has two volunteer helpers. These volunteers, Hazel "Grandma Hazel" Ohl and Bob "Grandpa Bob" McCray read to the children, talk to them and help soothe them to sleep among other vital duties. Ohl is involved with the Foster Grand-

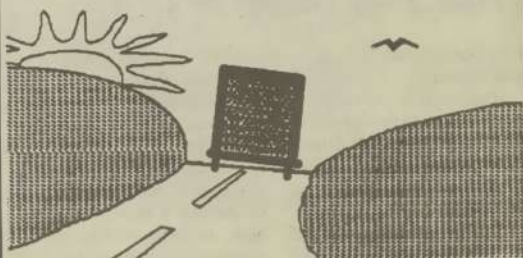

parents program. McCray's wife works at the center.

Three very out-going youngsters, Sarah Jarrett, Cheve Caruso and Cassie Fisher, made it clear that this was their school. Jarrett and Fisher were involved in practicing to fall down, while Cheve labored over a puzzle comprised of animal shapes.

"Yeah, but I'm not very good at moods," Cheve commented when he was asked whether he enjoyed puzzles. "I'm in a bad one all the time."

Strangers are stopped at the door and asked to identify themselves, but parents of children who are enrolled are welcome to drop by anytime.
