

Anti-Semitic information distributed on campus

# Pamphlets ignorantly, cowardly promote racism, sexism

by Daphne Hartt  
Staff Writer

A few weeks ago, CCC Public Safety came upon an interesting pamphlet that was being distributed among CCC students. This pamphlet, "Who Rules America?" is an Anti-Semitic news release which focuses on Jewish immigrants who are involved in mass media.

According to Public Safety Supervisor Jim Wiseman, there are no known suspects. Also, the circulation of this pamphlet is not illegal. The National Alliance (N.A.) of West Virginia is the white supremacist group who organized and fabricated it. The fact is this group has the right to write and distribute this type of material. Unfortunately, the American Constitution gives groups like the National Alliance, the Klu Klux Klan (KKK), and the White Aryan Resistance (WAR) the right to exercise their freedom of speech. However, this is the same amendment that gives me the right to express my opinion.

In the area of television, the pamphlet emphasizes the ridiculousness of "Jews controlling the media and persuading a whole generation."

In one particular paragraph, entitled "Molding American Minds", the N.A. states that under Jewish media control people are led to believe that, "a racially mixed couple will be liked, and socially sought after by other characters, as well as a "take charge" Black scholar or businessman, a sensitive and talented homosexual, or a poor but honest and hardworking illegal

alien from Mexico."

Basically, this organization is angry at the fact that most Americans like diversity and are trying to put an end to racism and sexism.

The N.A. goes on to say, "A White racist, that is, any racially conscious White person who looks askance at miscegenation or at the rapidly darkening situation in America, is portrayed, at best, as a despicable bigot who is reviled by other characters, or, at worst, as a dangerous psychopath who is fascinated by firearms and is a menace to all law-abiding citizens. The White racist 'gun nut,' in fact, has become a familiar stereotype on TV shows."

The N.A. also expresses concern about our country's best newspapers such as the *Wall Street Journal*, the *New York Times*, and the *Washington Post*. They claim that since these media companies are owned and run by Jews, our country is missing out on the real news of the world. The articles state, "They (Jewish descendants) are the ones who decide what is news and what isn't, at the national and international levels. They originate the news; others merely copy it. And all three are in Jewish hands."

So what exactly is the news that N.A., WAR, the KKK and other racist groups want to hear? The previously mentioned newspapers have been the most prestigious in the country for several years. If Americans thought these Jewish-run newspapers were not newsworthy and entertaining they obviously would not spend their money to purchase the material. So if White supremacists feel that

the media is unsatisfactory, why is it that the *Wall Street Journal* sells 2.1 million copies each week day? And why are magazines such as *Vogue*, *Gentleman's Quarterly* (GQ), the *New Yorker* and *House and Garden* are some of the best selling on the market? These are all owned by Jews.

Another excerpt from the pamphlet displays the ignorance involved in this whole issue. "The Jew-controlled entertainment media have taken the lead in persuading a whole generation that homosexuality is a normal and acceptable way of life; that there is nothing at all wrong with White women dating or marrying Black men, or with White men marrying Asiatic women; that all races are inherently equal in ability and character, except that the character of the White race is suspect because of a history of oppressing other races; and that any effort by Whites at racial self-preservation is reprehensible," states the N.A..

First of all, if you traced everyone's bloodline all the way back to their great ancestors, there is hardly a chance that every relative was purely White Anglo-Saxon. We all came from the same place at one time in history. How did so many races evolve? Did they just pop onto this earth one day long ago? I don't think so.

In order to have the variety of cultures that we have today, somewhere along the line different races interacted. Second of all, what is the rationalization of wanting to eliminate a particular race just because they have different characteristics such as skin

color, facial features and languages? Without cultural diversity, our country would not be as successful as it is today.

The N.A. seems to want one people, one belief, one religion...one everything. In the paragraph entitled, "Our Responsibility," they go on to say, "Once we have absorbed and understood the fact of Jewish media control, it is our inescapable responsibility to do whatever is necessary to break the control. We must shrink from nothing in combatting this evil power which has fastened its deadly grip on our people and is injecting its lethal poison into their minds and souls."

Whoever is placing the pamphlets on tables around the school and sticking them on the windshields of students' cars is cowardly expressing their beliefs by trying to get students to change their views. I am not saying that CCC does not have racists, because I would be lying or pretending the problem does not exist. However, if the person or persons that have been distributing the material had any courage, they would organize some kind of rally to stand up for their rights. Instead, the distributors try to force their beliefs on others and then walk around campus inconspicuously.

## Spencer to retire after 22 years at Clackamas

by Tracy Hobbs  
Staff Writer

Go to school just for the pleasure of learning? Not many people do it, but Annabel Spencer, secretary to the Dean of Instruction, plans to do it during her retirement.

Spencer, who retires on June 30, has attended classes at CCC for the last twenty years and plans on continuing to do so.

Spencer started working at Clackamas as a secretary in 1970, before some students were even born. She got the job after taking the secretarial science

ter attending classes at PCC.

In the 50's, Spencer quit working and got married. Her family grew with the birth of two daughters. Now she has six grandchildren.

While her daughters went to school, she continued working as a keypunch operator. She feels this is when her husband gave her some good advice. According to Spencer, he said, "Go back to school and do what you like, since you'll be doing it for the rest of your life."

And that has just been what Spencer has done. During her career, she has continued her education with Psychology classes, American Literature classes and a Bird Identification class.

According to Spencer, she will miss her job immensely. "I will miss most the people I work with and the students." But she also has exciting things to look forward to.

"I plan to continue taking classes, travel and spend some time with my grandchildren...they are growing up too fast," Spencer said.

Spencer's travel itinerary is already packed. She plans to go to Prince Edward Island immediately after her retirement, to spend time with some cousins she has never met. Also, she plans on going on the next Focus on Women trip.

Even though Annabel Spencer will no longer work for the college, she will still be an active student on the campus.

program. Spencer was hired by her instructor, Lyle Reese. Reese is now the Dean of Instruction. She got the job as Reese's secretary after working first as a secretary in the development office for off-campus programs. Spencer was an aspiring journalist in high school, but never followed that path. She instead worked as a keypunch operator in data processing af-

### Letter to the Editor

## Reader angered by flaw in CCC graduation system

To the Editor:

I am writing in regards to a system that I have been trying to refute since I recieved my grade report from Winter Term.

I am graduating this term and now enthusiastically prepare to begin further studies at PSU. Graduation ceremonies are

this GPA accumulated as of the term preceding that in which they will graduate. So, we who are graduating this Spring Term must have accumulated this average by the end of Winter Term.

Excuse me!

I think that since it took me through Spring Term to earn the

job that must be done by the administration to determine each of those students who should be entitled to wear cords at the last moment. However, may I also take into consideration those students who foul up during Spring Term knowing that, no matter what, they will still be able to wear cords so long as they made the average after Winter term. These students will not be deserving of honor cords, yet they will be allowed to show false achievement.

If it is necessary, grades for graduating students can be ordered in earlier than those of other attending students. This will allow more time for the administration to determine who correctly deserves the privilege of hanging honor cords around their shoulders during the graduation ceremonies. If the problem is not rectified by June 12, and if I have earned an accumulative GPA of 3.5 with this term's grades, I will wear my honor cords from high school through this year's ceremonies because I will have earned the privilege to do so.

Sincerely,  
Brenda Hodgen

an important part of a college student's accomplishments. The ceremonies offer a unique opportunity for those who are graduating to celebrate their achievements. However, there is a flaw in the system at CCC.

For graduates to be recognized as honor students, those who have a cumulative grade point average of 3.5 earn the privilege of wearing gold honor cords through the ceremonies.

So far so good.

The problem lies in the fact that those students must have

correct number of credits to fulfill my transfer degree, therefore, these grades must also be included in the calculations of my GPA. If I had accumulated the correct number of credits to graduate Winter Term, then it would make sense to use Winter Term's GPA. The way it stands now, I, as well as many other deserving students, will not be entitled to the much deserved privilege of wearing an honor cord during graduation to show my academic performance throughout my college career.

I understand the cumbersome
