## Grambusch loses battle with cancer

by Maury Webber  
The Print Editorial Staff

Norman Grambusch, retired Food Services Supervisor passed away Thursday, May 5.

Grambusch was employed at Clackamas from 1973 to 1990 when he took an early retirement. During those years the cafeteria in the Community Center was referred to as Norm's Cafe.

He had been battling throat cancer for the last year and a half. He was honored during a private service at his family's home

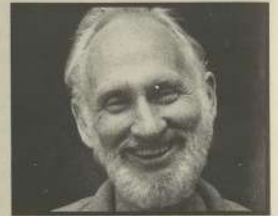

in Silverton on Saturday, May 7. He was then cremated.

Grambusch was fondly remembered by his many friends on the staff.

"He'll be really missed, he touched a lot of lives. He was a real people-person," Sharon Stahlnecker, Career and Counseling Receptionist, said.

Grambusch is survived by his wife Margaret, daughters Jackie, Teresa, and Laura; sons David, Mark, and Eddie; and several grandchildren.

Those wishing to pay their respects can write to Grambusch's family at 1201 N. Waters, Silverton OR, 97381.

## Internship program begins at Clackamas

Beginning fall term of the 1994-95 school year, six Clackamas Community College students will participate in the pilot project of the Service to Community Internship Program.

"Hopes are that we can establish this year and there will be opportunity for growth," said Mindy Brown, Head Coordinator of the project.

What is the Service to Community Internship Program? It is an opportunity for returning students to become interns in agencies within the community. Since the 1994-95 school year is the first year the program will be implemented, only 6 students have been selected. Their names will be announced in mid-May.

The purpose, as the mission statement explains, is "to build outstanding leaders with a lifetime dedication to giving back service to the community." It

gives the student a chance to learn and grow as a leader, in a safe work and learning environment. Brown hopes it will "build strong community ties and give students an opportunity to grow."

According to Brown, "students Amy Lundy and Rachel Austin spearheaded an effort on campus for volunteerism." These students have been encouraging volunteering in the community throughout the campus. The two have also been volunteering through ASG.

Service to Community will be the first paid program of the this kind at the college. Upon completion of one term in this program, participants will not only receive \$500, but also one college credit.

Funding for Service to Community was made possible by the College Foundation and the Ruth Allen Endowment. "We are now in the process of establishing sites," Brown said.

According to Brown, students will be volunteering at agencies such as Hispanic Outreach and businesses such as senior centers.

During the students' participation in this program, they will attend three seminar sessions. These sessions will cover topics such as policy, site description, communication and project evaluation.

"It will give us time for project development," Brown said.

Participants must complete a number of requirements to complete the program successfully. They must complete 75 work hours each term and maintain regular contact with the on-campus project coordinator. Also, during their involvement, they need to maintain a 2.5 GPA while taking 9 credits. Also, they must receive a recommendation for continuation from both the Community Service Agency and the project coordinator.

The pilot version of this program, taking place next year, will only accommodate 5 to 6 people, but Brown would like the program to expand after it is established.
